HEALTH

What a Magic Word to the Sick
and Suffering

Since the days of early history of the medical science this word has meant everything to the sufferer as well as to earnest practitioners of every cult of healing. The mysteries of disease have never been fathomed up to the time that Chiropractic was discovered by the Patrons—D. D. and his son R. J. of Davenport, Iowa, some twenty-five years ago, since that time a new hope shines forth on the horizon for every sufferer.

There is much to this new 20th century method of healing that cannot be explained in a few paragraphs. It is not a comprehensive course requiring three years of close and diligent study in order to get a thorough knowledge of this science and art and its underlying principles and philosophy. If you will call at my office I will gladly extend to you what time I can give you to go into detail of this wonderful health science.

However, let me say to you if you are a sufferer from any disease, no matter what health methods have failed to benefit you, do not despair and come to the conclusion that there is no hope for you on this earth until you have given CHIROPRACTIC methods a thorough trial.

of the First Presbyterian church. SALEM, Ore., Mar. 10, (AP)—Governor Patterson yesterday granted the extradition of F. O. Boudissin, who is held at La Grande for officers from Los Angeles where he is wanted on a bad check charge.

Before time for using agricultural implements comes along, it is wise to give them a coat of paint. Both the wooden and metal surfaces should be painted before they are exposed to the weather or to damp atmospheres. Exterior floor paints containing white lead and other pigments such as litharge or zinc oxide to harden the paint film are suitable.
