

SAY!

MEN!! Suits that look fifty dollars are looking around for men with

\$33

There's a lot to "looks" in a Spring Suit—and there's a lot more "looks" here than you pay for.

These garments will be firmly appreciated by the men who have been paying \$17 more—and the usual \$33 customer will have his value eyes opened.

So many men need clothing—and this opportunity needs so little explaining that we expect our mirrors to see a lot of new faces this week.

To Fight Merger Of Electric Firms

PORTLAND, Ore., Mar. 22 (AP)—Mandamus proceedings to invalidate the proposed merger of the Northwestern Electric company and the Portland Electric Power company, special election at which it is proposed to be submitted to the people on April 9, will be instituted in the supreme court by Clara M. Roy, through her attorneys Walter B. Gleason and John C. Veach.

Gleason left this afternoon for Salem to file the petition with the court and it is expected that a hearing will be held at an early date.

Our Selling Policy Is This:

We hold no so-called sales of any kind nor do we name comparative prices of any kind. Goods are always sold at the lowest possible prices consistent with prevailing market conditions, and when the price of some article is marked down to its replacement value, the former price is never mentioned. We aim to give the same fair, square treatment to you every day.

HEALTH

THE UNDIGNIFIED FOOT

By Edward A. Rich, M. D., Tacoma, Wash.

Member Gorgas Memorial. It seems to be beneath the dignity of most medical men to stoop to common foot disorders. During the war one shipment of foot powder, sent to France to ease the feet of our soldiers, is said to have found its way to a field bakery and was made up into bread. Probably some medical officer was ignorant of its value as a lubricant for chapped and blistered feet and was trying to find a better use for it.

For many a year I have made the statement in public addresses that folks suffer as much pain with the despised static disorders of the feet as they ever do from such internal abdominal conditions as an infected gall bladder. If the latter they seek and secure relief; if the former, they grin and bear it or are consoled with.

Any painful static foot defect, almost all deformities in the foot region, when properly treated, can be relieved of pain and can be functionally cured. True, it is not possible to cure a bunion radically and have resulting an x-ray-normal great toe, but what matter, if the toe functions and is painless? We have high lateral arches and low arches. An arch in between is a normal arch and a normal height

is essential to healthy action. The foot is too high we have the so-called aristocratic high instep supposed to be a sign of blue blood but in reality causes, as the condition is called, was the cause of our army days. In the southern army camps many more men were incapacitated by high arches than by low arches or flat-feet. If the arches are too low, the strain of weight-bearing and the abnormal mechanics produce the disabling results of flat-foot.

There is another arch across the foot at the base of the toes known as the anterior or metatarsal arch and in this locality appear such agonizing conditions as Morton's disease, metatarsalgia, enlarged bones in the tendons, bunions, sweeping exostoses often called soft corns, and several other less common maladies. Mention should be made of ankle valgus, or turning out of the foot at the ankle with the resulting prominence and lowering of the inner aspect of the ankle. This is the most common of all foot defects found in children. It is often supposed to be a fallen arch but is in reality only a weak and loose ankle joint.

How does the orthopedic surgeon tackle his job of correcting the foot defects? In the young the defects are corrected, in the old it is better to modify the shoes and adapt the footwear to the defect. This can be done skilfully and will accomplish the same thing as correction of defects. The time has come when the

economic loss and personal suffering from the many foot defects should be frowned upon. They are comparable with malaria twenty years ago—they are disorders with specific treatment that eradicates them.

Get onion seed started if you want to grow exhibition onions for the fall shows. This is also good advice concerning leaks which are always fine exhibition subjects.

Send in your seed order if it hasn't already gone. You will get

NOTE—It would be illegal to publish this if not true.

Getting Up Nights For Bladder Relief

Is Nature's Danger Signal. Columbus Minister's Wife Relates Experience. The Rev. W. H. Mitchell, 824 No. Park St., Columbus, Ohio, says in his own home paper, the Columbus Dispatch: "My wife was troubled seriously with bladder irritation until we used Lithiated Buchu (Keller Formula). She had to get up 6 to 8 times each night. Will gladly answer any letter." Lithiated Buchu acts on the bladder as salts do on the bowels. Drives out foreign matter and decreases excessive acidity, thereby relieving irritation. The tablets cost 2c each at all drug stores, Keller Laboratory, Mechanicsburg, Ohio. Locally at L. & L. Drug Co.—Adv.

it more quickly now than when the season is at its height.

Satisfy and parsimony are now in season. Get ready to renew the supply. The longer their growing season the better the roots.
