The Ladies Aid met Tuesday at the home of Mrs. O. J. Poley.

"I Advise Luckies" Says George Olsen Broadway's Famous Band Leader

"Wind condition is of paramount importance to players of modern popular music. That is why I advise all the members of my orchestra to smoke Lucky Strikes. We have found that the full body tobacco gives us a flavor that brings much pleasure in moments of relaxation. Furthermore, our constant indulgence in Luckies never taxes our wind nor causes any irritation to our voices."

George Olsen

The Cream of the Tobacco Crop

"In Buying tobacco for Lucky Strike Cigarettes every care is used in selecting only the ripest and sweetest tobacco grown. I know for I buy these tobaccos for Lucky Strike and they are known and spoken of over the tobacco belt as 'The Cream of the Crop.'"

CHIFFLE IS GYM STAR

PRINCETON, N. J.—Forced to hobble with the aid of a cane since childhood because of infantile paralysis, Charles Claggett is a star on the Princeton freshman gym team. In three months he has learned to do as much on the clymbing rings and high bar as many unhandicapped boys do in that many years.

PRISONERS HAPPY

CAUSE TROUBLE VISALIA, Cal.—It would seem to be a happy life in the county jail. The prisoners sing at night and listen to their music and other pleasures. At least Clara and Robert Johnston find difficulty in getting property adjoining the jail. And so they are suing the county for an injunction and damages.

"Good to the last drop"

Chosen from hundreds of different coffees these flavors that are mingled

Make your home the PRIDE OF THE NEIGHBORHOOD!

THE biggest single factor in the beauty and charm of most homes today is the roof!

There was a time—and not so long ago—when a roof was only a roof. It was there to protect... but not to beautify.

But the drab moth of yesterday has changed into a beautiful butterfly! The bane of the architect is now his chief delight! You now have scores of gloriously colored, artistically designed roofs from which to select.

These roofs are made of Pabco Shingles... created in a variety of styles and each style presented to you in a wide array of colors.

One Color... or Many!

You may have a roof of one solid hue, or any one of dozens of charming color combinations... whichever is most suitable to your own particular home.

If you are planning to build a new home, start now to take the roof into consideration and make it a part of the design and color scheme of the house.

Lay Right Over Your Old Roof!

Or, if you are re-roofing, these wonderful Pabco Shingles can be laid right over your old-fashioned roof... meaning economy in laying and giving your home double insulation against heat and cold.

Pabco Shingles are felt-base shingles surfaced with crushed rock. The surface is in the natural colors of the rock and are non-fading.

Fire-retardant!

Because of their scientifically designed construction Pabco Shingles are highly fire-retardant. A large percentage of fires start from flying sparks and a Pabco Shingle roof gives you practical

100% protection against fires from this source.

Economy of Pabco Shingles

Pabco Shingles do not need to be painted when first laid, nor do they ever require re-painting. Their beauty is permanent.

Yet, with all their advantages of beauty and utility, a Pabco Shingle roof does not cost any more than an old-fashioned roof. In fact, such a roof costs far less in the long run, for your Pabco Shingle roof will outlast an old-fashioned roof many years.

Sold on Easy Payment Plan

Pabco Roofs are sold on a plan which provides payments that will meet your convenience.

No Charge for Estimates

This company maintains a large staff of service men whose one aim is to assist home owners in deciding what design and color of roof is best suited to their particular requirements. The coupon below will bring one of these men to your home... free of charge and without the slightest obligation.

PABCO FLAT ROOF CONSTRUCTION

There are some roofs more suited to built-up construction than to shingles. For this purpose PABCO Built-up Roofs, constructed with Ru-ber-oid, Malthoid or Durable Roll Roofings, are the ideal solution. Ask our Service Man, or your dealer, about these roll roofings.

RU-BER-OID ROOFING • DURABLE ROOFING • MALTHOID ROOFING
