their schedule of indoor baseball for this spring in a rather disastrous manner, when they were defeated on the local gym floor by the Enterprise nine Saturday night, by a one-sided score, Union's pitcher, Edith Cheney, played a splendid game, fanning out the visitors repeatedly, but the other members of the team made several errors allowing Enterprise to secure and hold a big lead. The final score was 13 to 23. The visitors won the game mainly on fast and accurate fielding of the ball. Adrian Goodhead refereed the ball game. Union will go to Enterprise next Saturday for a return match. Four other games are scheduled, two with Wallawa and two with Imbler.

Construction work has begun on the club home which Will Baxter is building this spring for the Women's club. The building, which is being put up on Main street, will be bungalow style, and will be

of ample size to accommodate the club meetings and programs. The putting in of the basement and foundation will be donation work from the Union High school. When the school gym was built, the Women's club aided the student body in a financial way, and now the boys are to return the compliment. All the cement work will be donated by the school, the boys to do this work under the direction of the manual training and agriculture departments.

"Claude Pratt, do you keep wallpaper?" "No, I really don't—we sell it." When people can save 50¢ a roll on wallpaper, it's well worth taking notice of. Now, we sell kalsomine at 50¢ a package. We have about 1 tons on hand of several different brands: W. P. Fuller's and some Certain-teed and some T. L. Blood and Murreco and one or two other brands. You see, it's like this: We had a wallpaper and paint store in Baker but we moved the stuff down here and in order to clean all this kalsomine out and put in fresh stock of one brand of kalsomine, we will sell this last year's stock for 50¢ a package. So any advice would be for you to just shut your eyes and wade into kalsomine like Claude Pratt used to cut water melons when he was picking cotton in the south.

Then, we have some interior enamel and a few extra gallons of white paint that you can have for \$1.05 a gallon. Then, we have other bargains in doors and windows that would almost scare you blind. You remember, a few days ago that I told you to watch our ad; that we were going to give you a big surprise—well, this is part of it. We were going to go farther in our advertising scheme in reaching out to all the neighboring towns and villages, but as our trade has grown so rapidly and so many people of our own vicinity have been pouring in, we felt that it would be best not to try to get any more outsiders into our place of business, as we wouldn't be able to wait on them anyway. And it would be pretty hard to live any extra help to dodge around among barlike warehouses. We only have one cash register and that's in the boss' hip pocket and we don't know much about sliding up and down wires or passing money through hollow tubes. About the only thing we know how to do is to sell building material cheap and keep down the overhead.
