Members of the Junior Bridge club were guests at an attractive party yesterday afternoon when Mrs. Andrew Loney Jr. was hostess at her home on Spring street.

Three tables of bridge were at play during the afternoon and high score among the club members went to Mrs. Itay Price. Mrs. Oscar Warnock received the consolation prize and the guest prize went to Mrs. Stanley Mills.

Yellow and white was the color scheme used to decorate the rooms, bouquets of the season's flowers being used. After the card games the hostess served a two-course luncheon.

Mrs. Audmer Playle will be hostess to the club Friday, May 18.

Mrs. Elmo Clegg was hostess to the Island City Bridge club yesterday at her home on Cove avenue. Bridge was the diversion of the afternoon at three tables, and high score among the club members was made by Mrs. Fred Kildie. Mrs. Jack Hiatt received the guest prize.

The rooms were prettily decorated in a color scheme of lavender and pink, bouquets of sweetpeas being used. A two-course luncheon, served by the hostess, followed the card game.

Dance Last Night Is Well Attended

About 110 couples attended the dance which was given by the Carnation club to the Degree of Honor Protective association last evening at the Sackajaw hall.

The Joy Generators orchestra furnished music for the dancers and an enjoyable evening was spent. Pink carnations being the official flower of the club, large bouquets of these flowers were used to decorate the hall, and each member of the Carnation club and their husbands wore a single flower.

During the intermission Miss Gilda Ashby gave a solo dance number, accompanied by the orchestra, after which she was presented with a bouquet of pink carnations.

The proceeds from the dance will be used to help defray expenses of the state convention of the Degree of Honor, which will be held in La Grande in September. Mrs. Orval Doane was chairman of the committee in charge.

Several La Grande legionnaires and their wives attended the dance which was given by the Harry K. Larson American Legion post of Imbler last night. The dance was well attended and an enjoyable evening was spent, after which refreshments were served.

Those attending from La Grande were: Mr. and Mrs. R. G. McCall, Mrs. Albert Lamb, Mr. and Mrs. Otis Palmer, Mr. and Mrs. Everett McNew, Mr. and Mrs. C. P. Holbrook, Mr. and Mrs. Fox, Mr. and Mrs. Roy McNeese and Robert C. Ayres.

Operetta Given May 3 By Union High Glee Club

UNION, Ore., May 5 (Special)—The operetta "Love Pirates of Hawaii" was presented Thursday evening by the members of the high school glee club, under the direction of J. W. Buxter.

The part of Dorothy, daughter of a wealthy American plantation owner, and the cause of the difficulties, was ably taken by Valie Goertzen. Dorothy's sweetheart, Billy, (Alva Orton) wishes to see her in order to get into the girls' seminary. He writes Dorothy telling her that he will come disguised as a pirate chief. Miss Primer, teacher of the school, whose part is taken by Cynthia Hobbs, finds the letter and soon after a band of pirates come to capture the school, but Miss Primer makes them believe that she has machine guns stationed about the school and they promise to serve in her kitchen as cooks. The pirate chief, Glen Miller, loses his freedom and also his heart to Miss Primer while serving her.

Billy then comes and finds that the pirate crew is really a band of desperadoes eagerly sought for by the U. S. government.

All through the light opera songs were sung by the chorus of Hawaiian girls: Leona Sway, Gertrude Wheeler, Adeline Miller, Peggy Weaver, Doris Kirk and Jane Smith.

Women Are Letting Bobs Grow, Report

NEW YORK (AP)—Women are coaxing their tresses to grow down to their waists again, observes Louis Fabian Bachrach, photographer, and he prophesies that by 1936 the bobbed head will be the exception rather than the rule.

The prediction is based on figures compiled in eight cities. Selecting 109 women in each of the cities who have been photographed at least three times since 1922, Bachrach arrived at the following statistics:

Although approximately 75 per cent of the feminine population of the east wore bobbed coiffures in 1922, less than 20 per cent are bobbed today. The percentage of long-haired women in Boston is 41; in Baltimore, 77; Philadelphia, 51; New York, 72; Washington, 72; Cleveland, 68; Pittsburgh, 65; and

JUST WITNESS THIS JUROR

Time was when every eye in a courtroom was centered on the pretty witness, but in a certain District of Columbia Supreme Court trial the jury box is getting all the attention. For there sits Miss Mary Margaret Hamilton, with eleven others of the defendant's persuasion, on one James O'Donnell, alleged rum runner. What counsel couldn't make a stirring plea to a dozen jurors such as her?

Bridge Pointers

By Milton C. Work

Last Saturday we saw that an initial suit-bid could be made on a strong five-card suit in a hand which contains two quick tricks, and that a suit consisting of Ace-King-x-x-x (x indicates a small card of the suit) even if not supported by strength elsewhere in the hand, furnishes a bid. It may strike the reader that this requirement is much weaker than, and consequently inconsistent with, the No Trump requirement that the bidding hand have high-card strength above the average; he may compare the No Trump "count" of 12 with the mere 7 which an Ace and King total. This seeming inconsistency explains itself when the characteristic differences between suit-bids and No Trump bids are duly considered; and a comparison of these characteristics is our topic for today.

A card, to win a trick at No Trump, must be led or must be of the same suit as the card led; at a suit contract, trump cards can "break in and steal." Consequently a long trump suit means probable tricks regardless of what is led, and small trumps have a potential trick-taking value which small plain cards have not. The No Trumpner needs "stoppers" in several suits, and stoppers mean high cards; the suit-bidder needs plenty of trumps and can get along with comparatively little high-card strength provided some of it is in the suit he is bidding.

A No Trump bidder tells his partner: "I have general strength, you must guess where my weakness lies." The suit-bidder says: "My strength may be concentrated in the suit I am naming." With the latter definite information, the bidder's partner can "jump" "assist or deny" intelligently and, by thus being able to show the original bidder whether he is on the right or wrong track, make it safe for him to have started off with a comparatively meager equipment of high cards. The No Trumpner's partner does, and hence, a clear indication of the original bidder's hand and is more apt to leave him to his own devices; consequently his "devices" (i. e., his high cards) must be dependable in number and distribution.

Not as pertaining to contracted strength of No Trumpers and suit-bids, but as explaining the quick-trick requirement of the latter, it should be mentioned that the original bidder's partner frequently wishes to shift to No Trump; to do so with confidence, he must know where he will be assisted by a strong suit, and that he can rely on a couple of sure quick stoppers.

This subject will be continued next Saturday.
