**Food Hints For Children**

A new extension bulletin on food for children from two to six years has just been issued by the extension service for free distribution. It lists 12 "points to remember" in child feeding. Some of these follow:  
Give food only at the three regular mealtimes. If a mid-morning or afternoon lunch is given it is best light and given at a regular hour.  
The day's food is nearly equally divided into three meals, dinner being heaviest and supper lightest.  
Children should not "make a meal" from one food, such as potatoes, alone.  
Insist that the child finish everything to which he is helped. Serve small amounts.  
Reduce amount of food when the child is not well.  
This is the period when important food habits are being formed.

Help your child to eat regularly, to eat slowly, to chew thoroughly, to eat quietly and happily.  
Serve food as attractively as possible and teach your child to eat all foods suitable for young growing children.  
The following cooked vegetables are suitable for children from two to six years: Asparagus, beet greens, beets, celery, carrots, chard, onions, spinach, squash, string beans, and tomato. Uncooked vegetables except chopped lettuce should not be given but cooked vegetables should be given every day.  
Cooked fruit, custard, junket, well-cooked rice, or other simple cereal puddings are the best desserts. Plain cookies or stale sponge cake may be given. Candy or sweets, if given, should come at the end of a meal, never between meals.

Children should have some hard food each day, such as bread crusts for the proper development of the jaws and teeth.  
It sometimes happens that the one who loved and lost is the man who married her.  
No man should attempt to command until he has learned to obey.

**No More Neuritis**  
In Arms, Neck, Legs or Thighs

If you want to get rid of the agonizing pains of neuritis, neuralgia, sciatica or rheumatism, just apply Tyamol to the affected parts and see how quickly all misery will cease.  
Tyamol is a powerfully penetrating absorbent, soothing and healing in its action, which goes in through the pores and quickly reaches the burning, aching nerves wherever you rub it on. Those stubborn pains in the back of the neck, about the shoulder blade, face or head, in the forearm and fingers, or extending down the thigh to the toe tips, will soon disappear. Cramping of the muscles will stop and you will no longer be bothered with soreness, swelling, stiffness, numbness or tenderness of the joints and ligaments.  
Tyamol is not an ordinary liniment or salve, but a scientific new emollient that is entirely different from anything you have ever used. Don't suffer any longer. Get a supply of Tyamol at any good drug store. Price \$1. Always on hand at
