LEAGUE PENNANT DANGLES CLOSE TO THE PIRATES

(Continued from Page 1)

Eight, Stocke reaching first on a walk, and 10 men faced Henlon in the seventh, eighth and ninth. Rich's scratch single off Davis' glove proving of no avail. Just to give the Washington team some thing to think about, Henlon struck out Edwards, Wright and Bridge-walker in succession in the fifth frame.

Overlooking the errors, which happen in almost any man's game, the only point that didn't set as well with the crowd was Rich's desire to engage the umpire in frequent controversies.

One More Game Here— La Grande has one more game at home, facing Pendleton here July 1. Next Sunday the Corsairs go to Pendleton and on July 8 they wind up the season at Walla Walla. An exhibition game will be played at Baker on July 4, according to present plans.

Cyclone, Cloudburst and Punctures Fail To Halt Homeward Bound Students

Such mere trifles as an occasional cyclone, a dozen punctured tires and a cloudburst didn't bother Paul Meyers and John Larson, two Notre Dame students who reached home this morning in a collegeate vehicle that made the final spurt of the flyover marathon with true Knute Rockne spirit.

They toured dozens of leading American cities from beautiful Indianapolis to picturesque Phoenix and logged merrily over miles of American desert and "corduroy" roads—and best of all, perhaps, they saw Mexican cities with all their fascinating native atmosphere.

There was all the difference in the world in the atmosphere the minute you left the United States and entered Mexico, declared Larson today. "We saw women carrying baskets on their heads, old wicker houses and dozens of lazily interesting Mexican customs that give the country its colorful history," he said.

The boys left Notre Dame two weeks ago last Thursday. In that time they saw some of the towns they visited: St. Louis, Kansas City, Tulsa, Oklahoma City, Fort Worth, El Paso, Phoenix, Los Angeles, San Francisco.

Larson was particularly impressed with Indianapolis as a city of beautiful homes and fine civic spirit. Roads, the two boys declare, are in excellent shape, except for some corduroy stretches across the desert. They were tourists to take the inland Pacific highway to or from California, however, as the coast traffic is being delayed by road work.

At San Francisco the boys were entertained at the home of one of their Notre Dame fellow students. Larson is the son of Mr. and Mrs. G. L. Larson and Meyers of Mr. and Mrs. F. L. Meyers.

It may be taken as proof of future business ability that the two boys sold their lucky flyover an hour after they had reached home.

They were tourists to take the inland Pacific highway to or from California, however, as the coast traffic is being delayed by road work. "Sure, we stopped at the best hotels as long as our money held out," they relate. "We just drove old Lizzie up behind the Rockies and we got rooms with regular swimming pools for bath-tubs, just on the strength of the bluff," they narrated this morning. (But it is said that they gave the reporter particular instructions not to disclose this.)

They had the most-pleasant thrill of the cyclone just out of Port Worth. "We had to get out every effort to move the points, so that we could go on, that was all," Larson said in casually describing the storm which resulted in two or three fatalities in the vicinity.

Dry Head Gives Praise to Party For Its Stand

HOBERLIN, O., June 18 (AP)—Dr. Howard Hyde Russell, founder and associate superintendent of the Anti-Saloon league, in an address yesterday declared the republicans by their action at the Kansas City convention in adopting a "dried platform" and nominating Hoover and Curtis for president and vice president, have hardened to the will of the people to observe and enforce the 18th amendment.

"Hoover and Curtis both are reliable drys," said Dr. Russell, speaking before the annual reunion of the surviving men who founded the anti-saloon league here 35 years ago. "The republican party has gone dry because an intelligent American majority believes the statements of the world's greatest scientists that alcohol is a narcotic, habit forming, poison."

In discussing the coming national democratic convention at Houston, Dr. Russell said: "We urge our league allies, the dry democrats to prevent the nomination of Governor Ritchie, Senator Reed or Governor Smith. May the delegates listen to the protests of the millions of democratic voters against a wet nomination and not forget how the wet attack upon the platform was repelled by the Kansas City convention."
