Chrysler Followed Hunch; Found Success in Automobile Industry

CHRYSLER 1927—When Chrysler followed his hunch and started the production of the Chrysler 1927, he was met with a storm of criticism. But he persisted and the result was a success in the automobile industry. The Chrysler 1927 was a car that was ahead of its time. It was a car that was built for the future. It was a car that was built for the people. It was a car that was built for the world. It was a car that was built for the future. It was a car that was built for the people. It was a car that was built for the world. It was a car that was built for the future.

Smooth, quiet motor that gives you sleep at high speed for your other four—as perfect comfort. Acceleration that shows you ahead at the traffic line. Power that conquers the steepest hills. The positive braking action of big, self-locking, 4-wheel brakes. And the delightful handling ease provided by a ball-bearing, worm-and-gear steering mechanism. That's what you get in the Bigger and Better Chevrolet—a type of performance that brings an entirely new order of meaning to the low-price field.
