Here's a dandy lift-
a dinner speech for
some of you men-
"Now, dear, I'll help
you with the dishes."

"Strike the meat mar-
ket!-I want half a
pound of mince-
meat and cut it from
a tender young
miver, please."

"Hey, Mike," shout-
ed the bricking,
"don't come down
on that ladder on
the south side, I just
took it away."

The Milling is
starting the base-
meat for a new
house on 11th be-
tween Penn and O
streets.

For this kind of
weather you should
use PEACOCK coal.
It makes a crack-
pot fire.

Where are you go-
ing to spend the
Fourth? Here's say-
ing that you have a
wonderful time.
Don't eat too much
and go away on the
pink bennade.

Garden hint: An old
automobile tire
makes a dandy
trunk for a flower
stand.

"Get lighty, drink
lighty, drive lighty,
during the hot sum-
mer months," say
the doctors. And we
might also add "talk
lighty."

Would it help any
know that they are
having severe bliz-
ards these days in
the Argentine?

When you build
specify DENTER
locks. If you do you
will get solid brass,
and the cost is about
the same.

It won't be long now
and harvest. The
grain out through
the country doesn't
look so bad for this
time of year.

A lady lost her
thumb in a train
accident. "But she"
asked the accident
do you feel that
your thumb was
worth \$12,000?"
"It was the thumb I
kept my husband
under."

Polts will often get
three shares for
something that they
couldn't give any-
thing else for.
