1,257 TONS PER MAN
WASHINGTON (AP)—Output per man in the blast furnaces of the United States increased from 25 tons in 1925 to 1,257 tons in 1927, the Bureau of Labor Statistics discloses. During these 76 years the number of employees increased only 44 per cent, while the output increased more than 7,000 per cent.

Steady Stream of Gold Flowing From Uncle Sam's Mighty Coiffers

NEW YORK (AP)—Although the United States still holds more than two-fifths the amount of gold in the world available for monetary purposes, a steady stream has been flowing from American coffers during the past year.

In May, 1927, America held \$4,610,000,000 of the world's \$10,000,000,000 supply. Other nations seeking to build up their reserves and stabilize their currency, have tapped Uncle Sam's hoard during the past year to the extent of about \$800,000,000.

Economists are not worried over this drain, however, as it is estimated that the country could lose nearly half its present supply without deflation or encroaching on the necessary reserves of the nation. In 1914 America's total gold supply was less than \$2,000,000,000. It grew to present proportions largely through payments by foreign nations for wartime supplies.

Security traders, however, have watched the outflow of the metal closely as each dollar of gold represents about \$19 of banking credit. Changes in the supply consequently show quickly in loan rates. Last August the call money rate, the cost to the brokers for borrowing money used for their day to day transactions, fell to 3.65 per cent. On June 4 last it touched seven per cent, sagged after a day or so to 7.25 per cent, and then moved again to seven per cent on June 26. On June 27 it advanced to 7 3/4 per cent, and on June 29 moved to eight per cent, the highest since 1921. Again on July 2 it advanced, this time to ten per cent, the highest since 1920.

PLAN LUMBER EXCHANGE

SUBHAK (AP)—Yugoslavian lumber dealers are considering the establishment of a lumber exchange at this port, through which foreign purchasers could place their orders without passing through which foreign purchasers could place their orders without passing through intermediaries in Vienna and Budapest. The Yugoslavian traffic in lumber amounted to 50,000 carloads last year, and it is believed it can be expanded.

SCHOONER LOST

NEW YORK, July 10 (AP)—The schooner "Hofa," smallest of four that started on June 30 from Ambrose lightship for Santander, Spain, in the race for the Queen Victoria cup, has been lost at sea. The crew including Mrs. William Rose of Pelham Manor, N. Y., wife of the captain and owner, have been picked up by the steamer "Tiscarora," enroute for New York.
