**A BOY'S IDEA OF GEESSE**  
Little boys with vivid imaginations occasionally unreal some good stuff in analyzing the different animals, both wild and domestic. A little fellow outdid himself on geese in the following essay:

"Geese is a low, heavy set bird which is mostly meat and feathers. Its head sits on one side and he sits on the other. Geese can't sing much on account of dampness of the gullet. He ain't got no between-his-legs and he's got a little bullock in his stomach to keep from sinking. Some geese when they gets big has curls on their tails and is called ganders. Ganders don't buff to sit and hatch but just out and loaf and go swimming. If I was a goose I'd rather be a gander."

**Mother:** If you get a job in the chorus, I hope you won't wear tights.  
**Daughter:** Oh, but they don't wear them any more.  
**Mother:** Well, I'm very much relieved to hear that.

"Who invented the hole in the doughnut?"  
"Oh, some fresh air fiend, I suppose."

**Proud Parent (who served):** What I told you is the story of the World War.  
**His Son—But, papa, what did they need the rest of the army for?**

## Colorful Diving Act At Arcade On Wednesday

Seldom in the colorful career of Faneon and Marco, producers of stage shows for the West Coast theaters, has this duo brought together as dazzling a presentation as the "Diving Venus" idea, which plays at the Arcade theater Wednesday, both afternoon and evening, advance reports declare.

Headed as a stellar cast, this act presents a bevy of skilled water nymphs, who perform amazing feats on the stage in a gigantic tank specially constructed for the production.

Arlene Langen, Jimmy Fawcett, Dagmar and Governor and Woods Miller are in the cast as headliners, besides the diving beauties, and as an added attraction Arlene's seals will perform.

Faneon and Marco have been working for months to produce this water act, gathering the most skilled talent from throughout the United States. Not until the best talent could be had was the idea started.

When the "Diving Venus" idea played at Loew's State theater, Los Angeles, in its premier, critics from all newspapers raved about it.

## Jack Holt In Zane Grey Western at Star

Jack Holt in back again in Zane Grey productions. This news will be greeted by popular acclaim by fans of both author and star. Paramount has brought them back together in "The Vanishing Pioneer" which opens today at the Star theater for a three-days engagement.

Fans will remember Jack Holt in such successes from the pen of Zane Grey including "Light of the Western Stars," "The Thundering Herd," "Horn to the West" and others. All these, of course, were produced by Paramount, and in reuniting Zane Grey and Jack Holt, Paramount has and will gladden the heart of many a movie fan.

"The Vanishing Pioneer" is the latest Zane Grey production starring Jack Holt. Fans also will be glad to have the opportunity of witnessing a father and son both in the same production. We refer to young "Tim Holt, son of the star, and who is 7 years old. For the time he is privileged to act with his illustrious father, he does very well.

The supporting cast is excellent. William Powell, the suave villain, has a leading and important part. Also Fred Kohler, the sneering one.

By pins in their dresser drawers when going out on dates."

**Maize**—The jury awarded me five thousand dollars damages from that fellow that kissed me.  
**Mamie**—Gee! That's swell.  
**Maize**—But he hasn't got the five thousand and nobody has offered me a kiss since.

**EAT MORE RICE**  
**HAMBURG (AP)**—Although Hamburg is the chief port of the world's rice shipping, the people of the city and of Germany generally consume comparatively little. Rice interests now are conducting a nationwide campaign to increase the per capita consumption by distributing handbills showing the food value of rice and booklets telling how to prepare it.

**MORE SOAP FOR ORIENT**  
**SINGAPORE (AP)**—Malaya, which always has made its domestic soap by hand, is to use the products of a new soap factory located here and operating modern soap-making machinery. Annual capacity will supply scarce a third of the demand, however, and it is expected that the importation of more than 15,000,000 pounds a year will not immediately be affected.

**BERNE (AP)**—Gasoline tanks are to be installed at Swiss railroad stations, making them filling stations as well as passenger depots. The foreign company handling the gasoline wholesale has contracted to ship by rail, assuring a profit to the railroad, while the company is given sole right to the railroad concession.
