Stayed Too Long on Train—Because Miss Margorie Goldhardt who formerly lived in La Grande stayed too long aboard a California train and found herself bound for Los Angeles without any money she was the subject of an article which appeared in a recent issue of the Oakland Tribune. A copy of the issue has been received here. Miss Goldhardt and mother have lived in California for several years but formerly made their home in South La Grande and have a wide acquaintance here. With the story was an attractive picture of Miss Goldhardt. Part of the story follows: "All aboard! Pretty Miss Margorie Goldhardt of 322 Sixteenth street didn't hear those famous last words, and as a result she found herself aboard the San Joaquin Express, bound for Los Angeles, but without a cent in her pocket. By way of explanation Miss Goldhardt had gone to the Sixteenth street depot this morning with her mother, Mrs. Hattie Goldhardt, to bid good-bye to her sister, who was returning to Los Angeles. There were packages and suit cases to be taken care of, and a baby niece and nephew to be justly assured for the "Wonderland" country. She peeped on the presidential question. Miss Christenson declared that it certainly is the "one and only" topic of conversation which is heard in the Portland hotels and around the many groups of business men with whom he conversed. "I talked with one fellow who had just come from California and had taken a desperate straw vote by questioning at every stopping station the like about the way," he related. "And it was Al Smith straight through," continued the newspaperman who is "All for Al!"

KESSLER HUT BURNED DOWN BY OFFICERS
CHICAGO, Aug. 1 (AP)—The weather whipped that which was a Kessler hut, for 25 years, that was good enough, with its crude altar, to serve as his church; and good enough to, in dire emergency, be put to use as a morgue for the body of his aged housekeeper, was burned last night as a public nuisance.
Into the flames went the rafters from which police yesterday had suspended a shotgun and a vicious looking sword, its blade stained as though by blood. Into the flames too, went the recumbent bed beneath which on Monday officers had found a crude coffin in which was the body of Kessler's cousin, Gladis Clara Haupt, dead since April.
The bullet, the sword, the woman's body were a triumvirate of circumstances that aroused police suspicion and led them to investigate Kessler's activities as a self appointed priest to a small group of worshippers. One by one, however, the various theories were dispelled.

Williams' victory meant defeat for the United States in the first two finals of the day and again the reverses were at the hands of representatives of different sections of the British empire, the 110 meter hurdle champion having been won by Sidney Atkinson of South Africa. In both events the United States held the Olympic championships and failed in their defense.

County Court In August Session
Because the first Wednesday of August—the opening day for the monthly session of Union county court—was also the first of the month the usual number of county bills were not in today at the judge's offices where Judge U. G. Couch and Commissioners W. W. Stevens and W. R. Ledbetter are convening. Consequently there was not the usual intensive auditing of bills although this routine business matter did take up the greater share of the morning. The handling of the monthly bill will probably reach the judge's desk tomorrow, Aug. 2. Several important matters are expected to come up tomorrow at the August term of court.

SMITH LEAVES SHORE
HAMILTON, N. Y., Aug. 1 (AP)—With an appreciative wave of the hand to the weather man who had done all he could to make the vacation of a presidential nominee enjoyable, Governor Smith said farewell today to an old summer stamper ground and turned back to New York, Albany and the campaign.
Refreshed by a little more than three days at the shore, during which, if he had any political worries, he concealed them, the governor called for automobiles to be ready about noon. It was with reluctance that he pulled himself away from restful surroundings. The democratic nominee's schedule provided for a stop on his several members of his family, and a signal of newspapermen, traveled along Long Island highways, at Deer Run state park, near Babylon, wrested from private ownership after years of litigation. The destination of the governor was the suite on 111 floor of the Biltmore hotel, which is his home in the Metropolis. There he expects to remain until Sunday when he will travel up the Hudson to Preakness to review national guardmen in camp.

MOSES LOOKS SOUTH
NEW YORK, Aug. 1 (AP)—Senator George M. Moses, vice chairman of the eastern advisory committee on the Hoover campaign, now believes an intensive drive should be made to secure electoral votes for Herbert Hoover in the south.
Senator Moses said his change of mind had been brought about by letters he had received from the south criticizing his recent statement that it would be unwise for the republicans to make a drive for electoral votes there.

Dr. Babston Home—After spending six weeks of intensive work in the New York City and Erie hospitals, Dr. F. L. Babston returned to La Grande last night by train. The laboratory is by far the largest of its kind in the world and it is actually hard to appreciate the immensity, the doctor says. There are 600 eye patients each day while there are as many as 150 on an average in every field of the work the eye, ear, nose and throat, he relates. Dr. Babston worked every day of his stay in the clinic on these special cases, getting the practical experience by assisting on the various types of cases. The cool weather that greeted him on his return was a pleasant relief, and, from the sweltering days he has experienced in New York, Dr. Babston is going to Katerberg on professional business Thursday and Friday morning will be back again at his office. Mrs. Babston and her son and daughter have been visiting in Walla Walla and the doctor will drive to Walla Walla for them on Sunday.
