Mid-West Heat Is Cause of 6 Deaths

CHICAGO, Aug. 3 (AP)—It wasn't the heat, it was the humidity (as the weather conversationists put it) that made the mid-west miserable yesterday and early today.

Relief was promised through thunderstorms today. Six deaths were attributed to the early August heat wave. Three persons being overworked, while three others drowned.

The temperature top for yesterday was 91, and the humidity reading was 51 at its high point.

COURTESY, PARTY SAFE

NEW YORK, Aug. 2 (AP)—Captain Frank T. Courtney and three companions, forced down in mid-Atlantic in a burning plane, were safely on their way to their New York goal today on board the British liner Minnowaska.

A suggestion of the hazards they had faced was contained in a brief message to Mrs. Courtney in London. "Had to come down owing to fire. Nothing to worry about," read the British airman. There was never a hint in his message of the 18 hours of tossing on the ocean waves which followed the descent until they were rescued.

The plane, on which Courtney had concentrated months of endeavor in the hope of setting his ambition to fly the Atlantic eastward, was abandoned in the sea which had claimed it. This infor-
