SITUATION IN FAR EAST IS SOME EASIER (Continued from Page 1)
Russia Left Out—Statesmen of 15 of the chief nations are starting for Paris where the Kellogg renunciation of war pact will be signed. Russia took umbrage at not being asked to join the party, her spokesmen, asserting that the whole affair was an anti-soviet movement, Spain received with good grace a hint that the original signatory list could not well be expanded and indicated she would be among the first to "adhere" to the multilateral pact.
Discussion of disarmament in connection with the treaty continued. One of the ideas advanced came from Paul Loebe, president of the German Reichstag, and a delegate to the socialist labor international congress at Brussels. He said the multi-lateral item should be applied also to disarmament, the increments to be carried out under international control.
Jugo Slavia's political atmosphere continued stormy. An editor who had denounced Stefan Raditch too strongly for the feasibility of the latter's followers, was assassinated. Then came the death of the picturesque Croat leader, refusal of his friends to permit a state funeral at the expense of the Belgrade government, and declaration of his widow even to receive condolences from cabinet sources. Ante Trumbich, political ally of Raditch, said that it was "quite impossible" to associate further with the Serbs.
From the Persian gulf came word that Ibn Saud, warlike king of the Bedjis, had decided to disagree with Great Britain over the frontier of the Irak Protectorate. The empire's troops in that section have weather eye open for dust clouds pressing south from the desert by the Wahabi tribesmen.

According to these reports the chief executive did not return from his angling expedition. All the occupants' speech was over.
WESTERN LEADERS MEET—SAN FRANCISCO, Aug. 12 (AP)—Western republican leaders gathered here today for a general conference on the presidential campaign in the Pacific coast and western states.
Dr. Hubert Work, chairman of the republican national committee, arrived here from Palo Alto and after the conference will leave for the east.
Dr. Work said he had no statement to make upon the situation until after he had conferred with national committee members and workers.
FARM LEADERS SEE SMITH—ALBANY, N. Y., Aug. 12 (AP)—A group of farm leaders from the middle west and south came to Albany today at the invitation of Governor Smith to confer with the democratic presidential nominee on the agricultural situation.
W. N. Dask, vice president, and legislative representative of the Brotherhood of Railroad Trainmen, hailed the speech as "the political masterpiece of the age," while Alexander Moore, American ambassador to Paris, called congratulatory on "a masterful address."
Senator James E. Watson, of Indiana, who bitterly fought Hoover in the pre-convention campaign, sent a telegram saying in part: "I heartily congratulate you upon this lucid declaration of your personal views and of party purpose."
Other Congratulations—E. S. Kinsey, national committee chairman for Vermont, sent congratulations on the prohibition statement, with particular emphasis on that part declaring the republican party denied the right of anyone to defeat the purpose of the constitution by induction.
Others sending congratulatory messages included: William Wright, Jr., and Julius Rosenwald, of Chicago; Thomas O. Marvin, chairman of the tariff commission; Ed. L. Clements, national committee man for Missouri; and D. J. Halczon, president of the Brotherhood of Railroad Firemen.
As much as he appreciated these expressions, those which appealed especially to the nominee were those coming from persons he does not even know and whose names generally are unknown. Among these were democrats as well as republicans.
