Whiting of Mt. Glen and he was assisted in the service by Fred Zaugg and Elmer Stoddard.

Have Successful Pet

The members of the Summerville Rebekeh lodge met with very good success at their lawn party held Saturday evening at the lawn near the Wagoner store, and while the weather was a bit chilly for the sale of ice cream, the patronage was quite liberal and the sum realized was quite satisfactory. In addition to the festival idea, a clever program was offered which went off successfully, as things at Summerville are wont to do. The main event was the genuine Rebekeh wedding, which previous to Saturday night had been the subject of much speculation and conjecture. There was no disappointment. At the appointed hour, as the strains of the Lohengrin wedding march were being ground out on a portable phonograph, the wedding party put in its appearance and in Solomon in all his glory was not arrayed like one of these. The procession moved along strictly according to Hoyle with the various roles of groom, or less prominence having been taken by the following Rebekeh—bride, Nona Greiner; groom, Irene Conrad; bride's mother, Perle Wagoner; bridesmaids, Anna Park and Texie Smith; ushers, Minnie Gurdy and Ruth Rollins; Barbara Greiner, best man; Mrs. Violet Hany officiating clergyman; little Greiner children, Gila Sien and Nona Hardy served as ring bearer and flower girls. The minister apparently tied a hard knot and it is probable that all concerned will live happily from now on.

Let 'Em Come

Since the start last week of the very fine yield of wheat on one of the John Schuchardt farms near Island City, there have come a number of stories of big yields. Over The Valley is exceedingly anxious to have all of these stories, and if you had such a yield and do not see the reporter when she calls, let her know and she will come at once for the data. A fine story is already located for next Friday's paper, and we are told, which is so good, that the farmer had disinterested parties measure his fields and grain Monday that there might be no mistake, whatsoever on the figures. Reports continue to be that the yields in the county is quite generally smaller this season but that the grain is almost invariably of a very fine quality and better than any other, with very few exceptions.
