

Over The Valley

Mabel E. Morton, Valley News Editor

Visiting Family—Montie Witty of Pendleton came to the Cove last week and is visiting his family who live here at the Cove for some time and also with other relatives in that locality.

Few Days in Country—Mrs. Mae Laughlin of La Grande, who is having a month's vacation from her duties at the West store is spending a few days at the home of her niece Mrs. Hugh Huron and family near Butler. Mrs. Laughlin will take up her work again Monday.

Stop for Visit—Mr. and Mrs. J. W. Sloan and their son, Glenn, a graduate this year from Simpson college, and their daughter, Miss June, a junior in the college, and Mr. and Mrs. H. J. Goodale, all of Indianapolis, Iowa, were guests of Mr. and Mrs. A. E. Austin and Mrs. Austin's father, Les Hyatt at their home a short distance southwest of La Grande on the sidewalk road yesterday. These people were driving two cars from their home in the Hawkeye state, through to San Francisco. They were making the trip during leisurely having left their homes in July and stopped in the Black Hills, Yellowstone Park and other points of interest. In San Francisco Mr. Sloan will have a seat in the National Association of Retail Druggists' convention as a delegate from the state of Iowa. He is a member of the State Pharmaceutical board here. The visitors and the Austin family were neighbors in Indianapolis, which is also Mr. Hyatt's present home.

On Business Errands—Mr. and Mrs. Lynn Chadwick of near Cove were visitors in La Grande yesterday. Mr. and Mrs. Chadwick, some time ago had an opportunity to visit in possession of a fine fruit and walnut farm near Salem and were quite anxious to conclude the deal, but have not as yet been able to do it satisfactorily.

Furnish New Car—Miss Alice Marganzoli, county health officer is covering the route in a brand new Ford business coupe which is making her work that much easier. Miss Marganzoli returned a short time ago from her month's vacation spent at her home at Burlington, Iowa.

An Invitation—We are asked by the Black Wall group of near Elgin, to extend an invitation to all the young men of Union county to attend a picnic to be held all day Sunday at Black Wall. The invitation states that ice cream, coffee and homemade will be furnished free by the hostess subordinate and that those coming are asked to bring their lunch, cups and spoons.

Day in Valley—Miss Myrtle Rhine, long distance operator with the Pacific & T. Co., spent Wednesday with her friend and sorority sister, Edna Leubacher near Alsea.

Like Father, Like Son—Train a child in the way he should go and "whip off the old black" or several other things which are said about the new owner, manager, publisher of the North Powder News and his complete force, operator, floor men—just everything. Recently the North Powder News changed hands and a M. Deaton came down from office miles north of Spokane to take up his new duties. He brought his family with him—Mr. and Mrs. Deaton and nine children, we believe. A get-around-undated coil was made by Over The Valley Wednesday morning and this was what was seen. The dad was busy at the desk, flooring coil wires, the oldest son was operating the printing machine, the next boy was working at the case, and the third boy was busy at the same, cleaning the space bands. "That's a busy place" and all were working hard to make this week's News the best ever run off. The two oldest boys will be seniors in the North Powder high school this fall and then the family force will be untripped somewhat, but during the summer and at any other time when an occasion demands, the Deaton family are sufficient to fill the office and "get out the paper" without the aid of any philistines.

Has Afternoon Party—Mrs. Todd of near Elgin entertained a group of her relatives and friends at a very enjoyable party Friday at her home near Butler. About a score of ladies spent a happy time at the Central hotel, informal visiting and some delicious refreshments filling the afternoon hours.

Taken to Hospital—Mrs. Matt Ayres of lower Cove was taken to Hill Lake hospital where she will spend several days undergoing a physical examination.

A Record Yield—Jay Breuners, who lives six miles below Cove on the Lower Cove road has the bumper so far in yield of wheat—that is astounding to experts which have come in. Mr. Breuners was very modest about his story and refused to give out the facts until he had had several impartial parties measured his

wheat and acreage. The story is this—From 22 acres, 1848 1/2 bushels of wheat were harvested which means an average of 85 bushels to the acre. This was forty-fold wheat. From another field consisting of 55 acres an average yield of 2 1/2 bushels was realized. This is all the fall wheat which Mr. Breuners had, but he will have 20 acres of spring wheat to harvest later.

Is Improving—Charles Spencer of Grange Hall neighborhood is getting along splendidly now following his operation last week for appendicitis. Mr. Spencer has been a patient at the Grande Ronde hospital.

Day in La Grande—Mr. and Mrs. Frank McKinnis of below Sumnerville went to La Grande Tuesday on shopping and business errands. A visit to a garage found something serious wrong with the engine of their car necessitating a long day at the county seat.

To Attend Conference—Mrs. Lynn Chadwick of lower Cove will accompany Rev. Alice Payne to Boise next week where they will spend a week attending the annual conference of the Inter-mountain conference of the Methodist church. Miss Payne's friends at the Cove are hoping that she may be returned to the pastorate at Cove for another year.

Few Days in Country—Miss Anne Arnoldus head of the home economics department in the La Grande high school is spending a few days in the country at the home of her sister, Mrs. Houth McKennon. Miss Arnoldus has recently returned from Portland where she spent several weeks resting and receiving medical attention.

Still Going Huckleberrying—Mr. and Mrs. John Miller, Mr. and Mrs. Frank Miller and George Chadwick of lower Cove went last night on a camping trip up Warm Creek trail and will spend a few days gathering huckleberries, which are still quite plentiful.

Come Home—Lawrence Webster, a farmer living in the Iowa district had the unfortunate of having his Ford coupe burn up about two weeks ago, while harvesting operations were under way on his farm. Mr. Webster was carrying a can of gasoline into the wheat field where work was being done. Whether the can leaked and allowed some of the gas to fall on the exhaust pipe resulting in flames or whether there was a short is not exactly known. In any event Mr. Webster's car had to be scrapped as a fire. He took the chance of getting it out of the field and away from the big fields of ripe and dry grain and had barely reached the road and gotten out of the car when the tank exploded, and the whole thing was a mass of flames.

Entomologist Over Vacation—Miss Blanche Whiting of Mt. Emily and her cousin, the Misses Klva and Mabel Larsen of Logan, Utah, landed at Seattle Tuesday of last week on the return from their nine day trip to Alaska, and came on reaching La Grande Monday of this week. Miss Whiting is very enthusiastic over the trip which was one of enjoyment from beginning to end. From La Grande they went to Portland where they had several days, taking in the sight-seeing trips, visited the Battlement Oregon and had several hours at the new Jantzen Park. From there a trip by rail to Seattle where they took sight-seeing trips and one long trip to Itanite National park having royal time at Paradise Inn. From that city on July 2nd they joined a party of 250 people who boarded the Pacific SS "Dorothy Alexander" on their big "Talk Of The World" excursion to Alaska. Included in the party were 18 members of the American Bar association and their wives who had been attending the convention at Seattle. One of the interesting incidents on the journey up was a close-up view of the Tahoma glacier. The first stop was made at Victoria B. C. then on to Ketchikan. Here they visited the canneries, one of them the largest in the world. They also watched the big fishing boats and saw one with a haul of 25,000 pounds of fish. Still the next stop was another interesting with its visit to the United States Experiment station, the Presbyterian Mission school, the Indian village and the famous Greek orthodox Cathedral. At Junction they were given a variety of entertainment and one trip of unusual fascination was that one to the Mendocino Glacier. The decked Indian atmosphere at Waukeet with its alluring Teton Pole was not the least welcome feature part of the trip. Quincy was overlooked, the stop at Blauway coming between Junction and Waukeet. From this place was taken the White Pass over and trip to Lake Bennett. For a nine day trip, it will be readily seen that the days were crisscrossed full of the things which would appeal to the visitor and traveler. Miss Whiting will remain at the home of her parents, Mr. and Mrs. L. P. Whiting until her school

HONOR OLDER FOLKS OF COVE AT PICNIC GIVEN ON TUESDAY

Tuesday was a "red letter" day in the annals of Cove, it having been the third annual picnic when the older folks of Cove were honored. The picnic was held in Association grove and dinner was served in Morris hall and tables were also spread on its many porches. People began arriving at an early hour and all were soon assembled, conversing gaily in groups in the grove, on the porch of Morris Hall etc. Dinner was served to more than 100 people including the hosts, the members of the Women's Improvement club of Cove. Besides the good things to eat, every table was laden with beautiful flowers, sweet peas, snap dragons, calendula, marigolds, phlox, dahlias, golden glads and every flower that blooms at this time of year in this locality.

After the dinner an interesting program was given beginning with a selection by the Lay orchestra, which was followed by an address by H. H. Weatherspoon of Elgin. Dr. W. T. Pfy made a brief address on the need for the betterment of the race. A solo, "A Perfect Day," Mrs. Lynn G. Chadwick, a reading "When Malindy Sings," Mrs. Roy Bell "In Days of Yore" by Mrs. Mary Wagner, presented the address by Dr. W. Sheehan of Enterprise, president of the Wallowa county pioneers. An original poem by M. L. Carter completed the program.

Seated at the long tables were Mrs. Mary Chambers, Enoch Wardell, Mrs. Abbie Gayette, Mr. and Mrs. George Miller, Mr. and Mrs. George McDaniell, Mr. and Mrs. R. P. Bell, Mr. and Mrs. Will Reynolds, Mr. and Mrs. W. E. Hays, Mr. and Mrs. G. Lund, Mr. and Mrs. S. W. Koger, Mr. and Mrs. G. M. Baker, Mr. and Mrs. A. A. Anthes, Mr. and Mrs. E. P. Williams, Mr. and Mrs. J. J. Conley, Mrs. Ada Walters, Mrs. Eva Milburn, Mrs. Lou Payne, Mrs. Martha Sheddick, Mrs. Mary Geer, Mrs. Arundella Sills, Mrs. Alice Taylor, Mrs. J. L. Gibson, Mrs. Harriet McDonald, Mrs. Lydia M. Lantz, Mrs. S. W. Crassey, Mrs. Eunice E. Conklin, Mr. and Mrs. Squire K. Thomas, Warren Martin, E. W. Udell, H. P. Blaylock, Mr. and Mrs. E. J. Keeley, Mrs. Kitty Goodall Turner, Mrs. Allen VanVlack, J. S. Burford, J. J. Gardner, Mr. and Mrs. J. E. Bisher, Mr. and Mrs. Charles M. E. Carter, H. H. Weatherspoon, Marion Leonard, L. D. Sutherland, Mrs. A. B. Daniel, Mr. and Mrs. C. T. McDonald, Mrs. Belda Kiddie, Mr. and Mrs. J. O. Tully, D. W. Sheahan, Dr.

opens in September. She is one of the Union county teachers. Her cousin will visit for a time in this vicinity and then return to their home in Logan.

On Vacation—County Superintendent of Mt. Emily is having his annual vacation this week from his office duties at the court house. Together with Mrs. Payne and their family, he went to Wallowa Lake this morning for a week's stay at the Wallis cottage.

Guests From New York—Mr. and Mrs. Andrew Woodin and their son and daughter-in-law, Mr. and Mrs. Harrison Woodin of Great Neck, Long Island, drove to the valley this week and made a short stay with their uncle and great-niece, E. M. Murphy of Alsea. The Woodins were on an extensive auto trip which included among other stops a delightful week at Yellowstone Park. From here they went to Portland. There are four of the relatives whom Mr. Murphy visited when he took his long trip east last summer.

Riding For Cattle—Roy Bakens, G. E. Lawson and Ed Basowals of lower Cove went up toward Mimms this week riding for cattle.

Muddy Creek Fair—The dates for the 1928 Muddy Creek fair have recently been announced for September 15th and 16th at the Muddy Creek school house about 12 miles beyond North Powder. This fair is one which always attracts many people from Union county, not only as visitors but as exhibitors as well. It is a suggestion that the county fair commission should show stated by the rural community and always has liberal patronage.

Mount Emily By Mrs. W. L. Wheatley, La Grande From an 8th floor window, I can see the mountain fair. As it rises up majestically on high, As if thanking its creator, For having placed it there, The prettiest spot, by far, beneath the sky. Sometimes the gloom of winter Is wrapped about its feet, While its crest is bathed in sunlight from above; A lesson for us mortals, Whose lives in care are steeped, To dwell within the sunshine of God's love.

Harvest on in Wallowa—From our correspondent in Wallowa comes the report that harvesting operations have been on in full swing in most parts of that county the past week or ten days. So far, he says, the weather has been ideal for the crops. Much of the winter wheat is being cut, some threshing is being done with stationary outfits while the greater part of the wheat in the hill sections is being harvested with combine. The yield is not coming up to that of last season; there appears to be considerable variation between yields from different fields. However, the best crops are but slightly above those of the average last year. Some of the highest yields reported thus far

with considerable logging going on at this time, most of the men are busy. It has also been reported that some farmers have found it difficult to secure sufficient help. The ranges in practically all parts of the county are beginning to dry up badly. Conditions are dangerous for fires, however, this section has been lucky in the matter of damaging fires so far this season as only a few small fires have come started and they were all under control before they had gained much headway. One particularly desirable advantage for Sudan grass is found in the fact if insulated by an insect plague—of grasshoppers, for example—it may be harvested in from 30 to 55 days from seeding and supply a good crop of hay. The succeeding growth may escape ravages of the insect. If the dog, or particularly a pup, is not looking thrifty at this time, try to discover the cause. Pale white rats, particularly if the hunting method is employed, in combination with rat-control contents in 12 Texas counties during the winter of 1927-28 more than 2,000,000 rats were slaughtered.

Mr. Mrs. Mary Chambers has been accorded the privilege of living 85 golden years. Mrs. Abbie Gayette is a close second with 80 summers to her credit. Knoch Wardell who has traveled along life's pathway for 84 years forgot all about the party and was caught on the street and induced to attend. Mr. and Mrs. C. T. McDonald came over to the picnic. Mr. McDonald lived in the Cove 23 years ago. With them were Mrs. Belda Kiddie and Mr. and Mrs. J. A. Tully. Mrs. Mary Chambers has been accorded the privilege of living 85 golden years. Mr. McDonald lived in the Cove 23 years ago. With them were Mrs. Belda Kiddie and Mr. and Mrs. J. A. Tully.

John and Mrs. Conley were over from La Grande, with them some friends from Baker and Mrs. Conley's sister, Mrs. Ada Walters of Corvallis who lived in Cove about 12 or 14 years ago. Miss Mary H. Geer, now of La Grande, but for 20 years a resident of Cove was among "those present."

Mrs. Cyril Richardson of Pendleton added much to the music of the orchestra. Mr. and Mrs. H. L. Lay, the always dependable musical quartet of Cove were there with some lovely music and were assisted by Robert Laird. To the Women's Club, the hostesses, who sponsored the affair is due all the glory, as well as the motive power that made it a success.

Charles Thomas G. Hefty and wife, Charles started Wednesday on a vacation trip which will take them to the home of Mrs. Hefty's people at Grand Junction, Colo. The fall between cherries and peaches gives Mrs. Hefty an opportunity to be away a visit to her former home having been under confinement for some time. Starting from Cove with Mrs. Hefty, Mrs. R. S. Conroy president of the Women's Improvement club of Cove, is on her way to Plymouth, Wisconsin to visit her mother, who still lives at the old home.

Miss Lydia Cleaver returned today to her home near Butler following a summer excursion taken at the Cherry Normal. The Ladies Aid society of the Cove Methodist church meets at the church next Wednesday for a silver tea and also for the annual election of officers.

Mr. and Mrs. Harold Murphy of Riverside, California, drove into Alsea last week and visited briefly with their uncle, E. M. Murphy of Alsea. Mr. and Mrs. Murphy were on an auto trip through the northwest and stopped off here for one day of the journey.

This week has been the middle part of the harvesting of fall grain completed. It is reported over the valley, and each day has seen long trains of wagons and trucks about the various elevators, mills and warehouses over the county awaiting to have their load taken out. The harvest will be very good.

Harvest Progress—This week has been the middle part of the harvesting of fall grain completed. A SEASONABLE RECIPE

- Cory Relish: 1 dozen ears sweet corn, 1 quart onions, 2 cups salt (scant), 2 teaspoons turmeric, 1 tablespoon celery seed, 5c worth white mustard seed. Put through a chopper or chop in a bowl if preferred. Add other ingredients and boil 15 or 20 minutes. Seal white hot.

Competition enhances results in wide spread campaigns to exterminate rats, particularly if the hunting method is employed. In combination with rat-control contents in 12 Texas counties during the winter of 1927-28 more than 2,000,000 rats were slaughtered.
