Veteran's Jinx Over Clan McGraw Smashed—Pittsburg Gains

BY WILLIAM J. CHIPMAN (Associated Press Sports Writer)

The Giants were unable to withstand the force of their Wrigley field jinx in Chicago, but as soon as they set foot in St. Louis, they proceeded to demolish another well [illegible] reduced to an unrecognizable [illegible] by a shameful assault yesterday, the venerable Clarence Mitchell, long famed as the only left-handed spitballer in captivity, had been able to throttle the clan McGraw merely by having his name announced as the pitcher.

The turning point came yesterday when the New Yorkers shackled the veteran by 5 to 2 in a game which seemed as if it should have ended about 16 to 2.

Giants Going Strong

McGraw's [illegible] success in the three-game series against the leaders gave him a larger margin than any single game usually represents. [illegible] [illegible] the Giants hope of gaining first place by three per centage points on a sweep of the series. [illegible] the Cardinal lead to two and one-half games and [illegible] the Red Birds with one defeat [illegible] of the number suffered by the [illegible] McGraw to date.

While the Giants and the Cardinals were locked in [illegible] the Pirates [illegible] a pair of games on the Reds in the third place and the Reds in the third place battle, and half a game on the Cubs. This was accomplished when the Buccaneers caught the [illegible] Phillies [illegible] and going in a double-header, [illegible] and [illegible] Paul Waner [illegible] Pie Traynor [illegible].

The Reds divided the Braves by 2 to 1 and the Robins did the same thing to the Cubs by 3 to 8. [illegible] pitchers' battle [illegible] [illegible] Riley and Doug McWeeny were the winners with Sam Gray [illegible] and Sheriff Blake on the losing end.

THE QUESTION

What Is Pasteurized Milk?

THE ANSWER

Many people think that pasteurized milk is vastly different from ordinary milk, and so it is. Pastuerized milk is a superior milk. Pasteurization makes the milk absolutely safe for huma nconsumption. It is a safety measure advocated by leading physicians and food authorities. Right now the state board of health urges the use of pasteurized milk in all the state institutions of Oregon.

Pasteurized milk is milk which has been heated between 142 and 145 degrees F. for 30 minutes and then quickly cooled. It is not boiled milk.

Blue Mountain pastuerized milk is on sale at all downtown and neighborhood stores. Or if you wish, you can have it delivered daily on our regular routes.
