BUTTER HIGHER IN ALL GRADES

All Classes But One Advance a Full Cent on Portland Market

PORTLAND, Ore., Aug. 29 (AP)—An ounce of butter was higher on local wholesale markets today, reflecting a continued large demand and light receipts. All grades were quoted a full cent higher except extras which advanced half a cent. Butterfat buying prices were also quoted a cent higher on the basis of 52c delivered in Portland. First butter advanced a cent to 51c in sympathy with the rise in standard cubes.

Egg values were steady at yesterday's quotations and, despite higher than demand.

Poultry markets were active and cleaned up early today. Receipts of all classes of chickens except broilers were light and prices firm.

Country dressed meats were generally steady to firm with receipts of veal still insufficient to satisfy immediate demand. Prices were not quotably higher, however.

There was little change in quotations on wholesale fruit and vegetable points and trading was rather quiet.

Peaches were in generous supply and brought 65@75c per box for Elbertas. Crawfords and Mixes, while J. H. Hales went mostly at $1.25@1.35 per box.

Apples were also in more plentiful supply and showed a wide range of price and quality. Best red Gravensteins from the Hood River district went at $2.50@2.75 per box, while other varieties ranged downward to $1@1.50 for faced and filled offerings.

Onion prices were unchanged, but few Walla Walla globes therefore being quoted at $2 to $2.25 per hundredweight. Some Oregon yellow danvers were also obtainable at about the same figures.

Harvest of the Lake Labish onion crop has started in a small way, buyers report, and car loading is beginning to get under way. Growers are receiving $1.50 and sacks, reports say. It will be another week before yellow danvers start moving in any quantity, commission men declare.

Bullish Activities Are Resumed Again

NEW YORK, Aug. 29 (AP)—Bullish activities on the stock exchange were again taken up to earned today and to soon more than a score of issues had been boosted $2 to $7 to new high prices.

The ticker was unable to keep up with the volume of trading and fell more than 20 minutes behind the market. While there was no excuse in the high credit rates points participation became general.

Grain Market At Opening Reacts

CHICAGO, Aug. 29 (AP)—The grain market reacted at the opening today from its rapid climb of yesterday and prices of wheat slipped down ¼ to ⅝c. Poor response in Liverpool to the upturn here was a factor in the weakness, but short covering in the early trading soon brought wheat back close to yesterday's final quotations. Deferred futures of corn were heavy, reflecting favorable weather conditions, starting ¼ to ⅝c lower, while September opened unchanged to ⅛c up. Oats and provisions were down a little.

Wheat and corn surged at the last and closed weak; wheat 1¼ to 1⅞c lower; corn 1¼ to 1½c down; oats easy, ¼ to 1⅜@1½c lower, and provisions irregular at 2c up to 15c lower.

Summer Draught Still Unbroken Bureau Reports

PORTLAND, Ore., Aug. 29 (AP)—While a few local showers have occurred in eastern counties of Oregon, and some light rain has fallen near the coast, the weather bureau of the United States department of agriculture said today in its monthly weather report that over most of the state the summer drought is still unbroken.

The government summary of weather and crop conditions in Oregon for the week ending Aug. 25, follows:

Cereals—Late spring wheat in elevated northeastern districts is maturing better than was expected. Elsewhere such spring grain as is not yet mature is much affected by drought. Conditions have been favorable for the progress of late harvest and of threshing. Irrigated corn in eastern counties is nearly mature. Unirrigated corn is generally suffering from drought. The soil is too dry for plowing and seeding.

Fruits—Most Bartlett pears have been picked and some late varieties are now mature; a few late peaches are in market and most prunes are approaching maturity. Fresh prunes are being shipped from the warmer eastern localities. Apples are developing well.

Meadows, pastures and ranges—Irrigated alfalfa is doing well, except in places where water is scarce. Most other hay crops have been harvested. All unirrigated domestic pastures and much of the mountain range area are dry and short.

Livestock—Owing to short pasturage considerable feeding of stock is being done. The milk supply is low, owing to short feed. Many lambs are being marketed.

Miscellaneous—Most early potatoes are mature. Irrigated potatoes in central counties are developing well, and are generally safe from frost. Unirrigated late potatoes in western counties are injured by drought. Conditions are favorable for picking early hops.

Market On "Bull" Rampage Today

NEW YORK, Aug. 29 (AP)—The stock market went on another "bull" rampage today under the leadership of Radio Corporation common which soared nearly $12 a share to $281. Nearly two score individual issues rallied $1 to $4 a share to new high records with the average of 20 leading industrial issues compiled by the Associated Press setting a new high record for all time.

The mysterious inflow of funds into the call loan market in which the expected "money pinch" failed to develop was the chief factor in the day's advance although favorable trade and earnings reports also played a big part. Countless merger and dividend rumors were circulated around Wall street and over the brokerage wires to all sections of the country as buying orders poured into the market in tremendous volume. The ticker fell hopelessly behind the market despite the use of the abbreviated quotation system and early afternoon indications pointed to a four million share session. Standing room was at a premium in most of the big commission and wire houses and visitors again flocked to the balconies of the stock exchange to witness the greatest "bull" market since last spring.
