The purpose of the meeting was to discuss the plan of having a Home Demonstration Agent in this county, as provided for in the Capper-Ketchum bill which was passed by congress some time ago. This bill provided for funds for the employment of a worker providing the county would pay for expenses. Mrs. McCann explained the plan quite fully, asking the women present to take the matter up with their respective organizations such as the granges, and find out the sentiment in the county. She stated that this is provision made for three of these workers in Oregon, and she believed one of these should be in Eastern Oregon. It was thought that a full-time worker would take care of a full-time worker, or the other way around, or having a part-time worker in the county and half in another county, the other part of her expenses while there. All the women present seemed very favorably impressed with the plan, and wished to talk it over with their committees, and report at a future meeting. This is the story that went through the court house fire. There is one other club of five members which looks very much like it might be from Island City, but the ink was not waterproof and the ink on the bank is entirely illegible. The rest of the club members will appear next Tuesday.

Boys And Girls Clubs of Union County To Picnic Saturday At E. O. Experiment Station at Union—Is Annual Event
The annual picnic of the boys' and girls' clubs of Union county is to be held Saturday, Sept. 1 at the Eastern Oregon Experiment station at Union. This follows a custom which has been maintained for the past few years and is one of the events in the club calendar which is looked forward to for a long time preceding the actual date. At this time all the clubs are engaged to have completed their year's work and to have their reports all ready to hand in. There will also be an exhibition in the station office, work which has been completed in the various fields—sewing, cooking, gardening, poultry, etc. These exhibits will be judged by competent persons, and the winners—the reports of work done and record books being also taken into account—will be properly rewarded. The reward most coveted by club members is the trip to the state fair, which is the outstanding prize. Club work has always had an important place in Union county. Under the direction of County Agricultural Harry Avery, who superintends the livestock clubs, and county Superintendent of Schools E. A. Sayer, who has supervision of the other clubs, the work has gained considerable prominence, evidenced by the recognition which club members have received not only at the state fair but also at the Pacific International. A list of the clubs and members is given today, showing the size of the company and the personnel of the company who will be interested in the big picnic Saturday, and it must be added that parents and others are welcomed, the dinner to be served at noon under the trees about the station office. He is the son of Mrs. Margaret Oliver, of Portland, who has been spending the summer in the valley visiting relatives and friends. A group of young people rode to Mt.
