How Can We Improve It?

"How can we make it better?" is the constant cry of manufacturers of advertised merchandise.

Why? It might well be pride in the product that bears their good name. Often it is.

But not always. It's just good, hard-headed business, mostly. The improvement of a product that is already considered satisfactory makes that product play a more definite part in the life of the user. It wins and holds an added loyalty, and, of course, added business.

Every product being advertised in these pages is studied continuously by its maker in order that it may be more and more useful and helpful to you in your daily life.

Isn't that the sort of merchandise you want? It's all presented in a straightforward, honest way here in the advertisements, day after day. Read them for economy's sake!

Advertised merchandise is trustworthy merchandise
