

CONSTANT EXPANSION

to serve Chevrolet owners better

 SINCE January 1st more than a million new Chevrolets have been delivered to owners—making the Chevrolet Motor Company, for the second consecutive year, the world's largest builder of automobiles! This outstanding achievement has been attained not only because of the quality and value of Chevrolet cars—but also because there has been a constant expansion of Chevrolet service facilities.

In order to bring the mammoth resources of the Chevrolet factories to Chevrolet dealers and owners everywhere, there have been erected 26 huge parts warehouses in the principal centers of distribution. This expansion program is continually going on—for four great additional warehouses will be in operation by January first and seven more by the summer of 1929.

Into the service departments of all Chevrolet dealers, Chevrolet has brought special tools and shop equipment—designed under the supervision of Chevrolet engineers. This equipment

definitely assures maximum speed and precision and the lowest possible cost in the performance of every service and repair operation—which are charged for on a flat rate basis.

Furthermore, all of these tremendous facilities have been made available to 15,000 authorized service stations manned by skilled mechanics—over 25,000 of whom have been factory trained to efficiently handle every repair operation on a Chevrolet car.

Uniformly efficient, uniformly reliable and within easy reach of everybody everywhere—this great service organization is assuring continued satisfaction to millions of Chevrolet owners. It is maintaining at peak efficiency the fine performance for which Chevrolet cars have always been renowned. And it is giving a new and broader significance to the world-famous Chevrolet slogan—

"Quality at Low Cost."

We cordially invite you to come in and see how our service department reflects the influence of this great national service program.
