A SEASONABLE RECIPE

TUTTI FRUTTI SAGO Cook 1/2 cup sago in 1 1/2 cups water for an hour. Cook in double boiler until clear and smooth, stirring frequently. Add grated rind of a lemon and orange and 1 cup of sugar. When the sugar is cooked into the sago, remove from the fire and add 1 teaspoon vanilla, the juice of half a lemon, 1/2 cup pineapple juice, 1 cup each of minced pineapple, canned peaches, canned peaches and fresh bananas. Turn into sherbet cups and allow to cool. Just before serving put a heaping teaspoon of whipped cream upon each portion and top with two or three preserved cherries. As above this is a very rich dessert, but it may be amplified by reducing the variety of fruit to oranges and bananas and serving with whipped cream.

UNION COUNTY MEN PURCHASE PUREBRED STOCK IN PORTLAND

This page has been very glad to chronicle during the last two weeks the auction sale when animals from Herb Chandler's herd of Baker county were being offered. Mr. McKenna purchased a fine registered Hereford bull. It might be mentioned here that Mr. Chandler was a big winner this year. Most residents of this section of the state are quite familiar with his Hereford, as he is a consistent exhibitor at the Eastern Oregon livestock show at Union.

Clyde McKenna of Pleasant Grove was one of the bidders at the auction sale when animals from Herb Chandler's herd of Baker county were being offered. Most residents of this section of the state are quite familiar with his Hereford, as he is a consistent exhibitor at the Eastern Oregon livestock show at Union.

A. J. Davis of Union brought home a registered Shorthorn bull. The Andrew Blokland farm will have its pens improved by the addition of a registered Berkshire boar and a registered Berkshire sow. They are from the O. A. C. herd.

Leon Levy, who raises a few horses on his stock farm near Union, purchased a registered Shire yearling stallion and a registered Shire filly colt.

Alfred and Herbert Blokland bid in a registered Hereford heifer calf which they secured for \$240. Herbert sold his bull calf for \$200. Both the boys won numerous prizes. Clifford Conrad is happy over a purchase which he made. That of a registered Chester White boar. This boar has been winning first places at all of the shows in the Northwest where he has been shown. In fact, has never been beaten. Clifford sold all of the pigs which he exhibited excepting the one gilt which he wanted for his own pen. Clifford has been one of the hardest working club members in the county, we are told. This big amount of prize money which he brought home with him shows that his work has gotten him somewhere.

Clifford did his most outstanding work in the pig-feeding contest. In the contest in this district there were 10 competing, two from Grant county, three from Wallowa county and five from Union county. There were only eight pigs in this contest and of those Union county won first, second, third, fifth and eighth. In determining the results of this contest, of the 100 points

Mr. Avery reports that one of the finest moments of the show and also one of the most impressive was when the boys and girls of the club of the state presented Secretary O. M. Plummer with a fine new Buick sedan. It came like a bolt out of a clear sky to this veteran in the service, who has always

Complete Wheat Nursery Plots On Gaskill Farm

J. A. Gaskill of near Imbler and County Agricultural Harry Avery completed some time ago the wheat nursery plots on the Gaskill farm, this being the largest project of its kind in the valley and one which is watched with no little interest by the progressive farmers in the entire county. While fewer varieties were put in the nursery for next year, the plots are larger than have been put in previously.

Mr. Gaskill and Mr. Avery made plantings of three different selections of Hybrid No. 123 and one planting of Albit, said to be a smut proof wheat.

One planting was made of Union No. 134, a variety which has been developed at the Eastern Oregon experiment station at Union. Two three-acre plots were both planted to a new wheat developed at Moro this past year. One of these is a cross between Forty-fold and Federation, and is a soft, white wheat. The second is a cross between Hybrid No. 123 and Forty-fold. Both of these were in the nursery last year but were only in new plots. This was found to be the most promising of any of the varieties tested.

Since the farm excursion last summer the cross between the Hybrid No. 123 and Forty-fold has been reported as being the highest yielding variety at the Moro station this year.

shown such a practical interest in the club work. The club members raised the money themselves. Union county boys and girls contributing their quota of \$25. The club even made the dealer for the leading in Mr. Plummer's old car, and every bit of the transaction was done without Mr. Plummer "getting on" to it. He was very visibly affected when the presentation was made, and all were aware of the genuineness of his appreciation.

The first prize Hampshire ewe fleece at the Pacific International this year was produced at the Eastern Oregon Experiment station, Union, Oregon. The dam of the ewe producing the winning fleece was bred by Carl Whitmore, the veteran Hampshire breeder of Wallowa county. The sire of the ewe is "Dorset Gold," grand champion ram of the United States for 1925. It was also owned by Mr. Whitmore of Joseph, Oregon.
