NEW YORK, Dec. 3 (AP)—Jim Bottomley has smiled and batted his way into the hearts of the committee choosing the National League's most valuable player for 1928. His reward is a trophy and \$1,000 in gold.

Bottomley's selection, announced last night, brings new honors to the eager Cardinal first-baseman, who was a big factor in the two pennants his team has won in the last three years.

Pressing "Sunny Jim" hard for the award was Freddy Lindstrom, Bottomley received 76 votes and Lindstrom 70. Bottomley was with in four points of the highest possible total, but if any one of the eight committees had made a decided change in his ballot Lindstrom would have won out.

The committee, consisting of eight baseball writers, voted before the last world series, Hurt Whitney of Boston, president of the Baseball Writers' association announced the result.

Six full years of faithful work brought "Sunny Jim" the award. Ever since he broke into big league baseball with the Cardinals in 1922 Bottomley has been a terror at bat and a great defensive man afield.

His six-year batting average is .320. He is a front rank player in distance hitting, and this year he led for home run honors, led the league in triples with 20 and played second in doubles with 42. Bottomley's homers for the season total 31, the same number Jack

Idaho, Montana Hear Rumors Of Cold Shoulder

MOSCOW, Ida., Dec. 3 (AP)—Persistent rumors that the Universities of Idaho and Montana are going to be slighted in the 1929 Pacific coast conference football schedules and that a situation is brewing that will mean dropping of Idaho and Montana from the conference are being broadcast in this section.

One rumor has it that U. S. C. will drop Idaho from the schedule next year and will probably add Oregon. Idaho has played U. S. C. every year for five seasons.

Word from Stanford, Washington and U. C. L. A. leaves Idaho out of conference gridiron schedule mention.

reported to have received similar offers from Harvard and other universities.

The Nebraska offer, which has been neither denied nor affirmed by Wilce, caused a bigger stir today following reports that coach Ernest Henry of Nebraska planned to return as coach to his alma mater, Washburn college.

Indiana also was interested in a report that its coach, Pat Page, was in the west either to schedule a game for the Hoosiers next season or to consult about a coaching offer at some university along the Pacific coast.

Sugarless cereal means a fight

A little sweetening does away with an awful lot of trouble

CHILDREN'S meals should not be something to be dreaded. One of the most important of all dieting problems is to get children to eat enough bone-building, health-promoting foods. Ranking among the highest of foods for children are cereals, and yet, as an eminent food authority recently stated it, "Sugarless cereal means a fight."

He went on to advise mothers to make these necessary foods welcome and even looked forward to by the child through intelligent and judicious sweetening. Sugar in itself is the most perfect fuel to furnish energy for active children, and best of all it makes other necessary foods so easily and gladly eaten.

Children should not dread their meals. The wise mother or nurse, by an intelligent use of sugar, can enable children to enjoy all kinds of healthful cereals, fruits, vegetables and milk. Properly sweetened cereals also encourage the child to eat more milk. Sugar is Nature's ideal flavor. The Sugar Institute.
