AT THE THEATERS

Fawcett Famous On Stage Before Films

George Fawcett, veteran star of the stage and screen, is a Virginian, a graduate of the University of Virginia, who began his theatrical career in Baltimore and then after a brief experience as a trouper became a figure in the New York theatre. His first roles were with such notable as William Gillette and the elder Salvini, and he has played with Mamie Adams and produced, and starred himself, in a Shakespeare season in Baltimore, besides being starred in London.

Barthelmess Now Showing At Arcade

Lawford Davidson, who plays with Richard Barthelmess in First National's "The Patent Leather Kid," playing at the Arcade Theatre, has from its long Broadway run, gets no thrill out of visiting army camps.

Davidson visited one during the war and stayed there two years. It was a German prisoner camp, of two acres only, entirely surrounded with barbed wire, and while Davidson found no trouble in entering it, leaving was an entirely different matter. In fact, he was the Kaiser's guest there, and they insisted on his remaining. Early in the war Davidson, who is English, enlisted with the First South Wales Borderers. In an attack on a German machine gun post he was driven into a dugout, but over the head with a shovel and captured. He spent the rest of the war without suspenders, a quaint German custom of handling prisoners.

Mix In A Picturesque Western at Star

Tom Mix at his best—in a role that gives him and his famed horse, Tony, every opportunity for the best riding, dramatic action and spectacular stunts that have brought world-wide renown to that inseparable pair of film stars. This is the offering at the Star Theatre, where the popular favorite is presented in "Son of the Golden West," an EBO special production that has been acclaimed throughout the country as the greatest Mix picture yet brought to the screen. Colorful and picturesque to a high degree, the photoplay is laid in that period of our history when what is now known as "the old West" was being reclaimed from

the wilderness by pioneers and government agencies that pushed civilization along the overland trail which later became the first railroad line. Tom is seen in the role of a pony express rider—one of that intrepid band who carried the mails on horseback through dangerous country infested with hostile Indians and outlaws.

ROBBERS MISS \$10,000

GREEN BAY, Wis., Dec. 14.—(AP)—Two men who robbed the Farmers Exchange bank here yesterday left behind \$10,000 in gold and silver because it was too heavy to carry, officials of the bank said. The men, who obtained \$35,591 in currency, seized the assistant cashier near his home, forced him to give up the keys to the bank and reveal the combination lock numbers to the vault.

Cold starting can be quick starting but not with "WET" gasoline.

When "wet" gasoline hits the cold manifold and cylinders of your car it condenses like rain and runs down the pistons into the oil. Naturally, you find trouble in starting. "Wet" gasoline won't stay vaporized and therefore can't catch from the spark. You pull out the choke and send quantities of raw "wet" gasoline into the engine to make enough vapor to burn.

Finally you get the motor going, but the damage is done. Your oil is ruined after a few such experiences—diluted 50% or 60%!

You have wasted fuel, put extra work on your battery and spent many impatient minutes in the driver's seat.

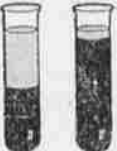

A motor can start quickly though, on winter mornings—but do not expect it with

"wet" gasoline. There is a "dry" gas now. Shell 400.

Exact refining has eliminated the "wet" part—the heavy fractions of petroleum that condense so easily. Shell 400, the "dry" gas, vaporizes even in the coldest engine. You get extra mileage and more power from it because none is wasted. You protect your oil from ruinous thinning.

Shell 400, the "dry" gas, is sold at the same price you pay for ordinary "wet" gasolines. Thousands of yellow and red Shell pumps sell it. No other Shell gasoline is sold.

Test it yourself. Use it for a few fillings until all the old "wet" gasoline in your tank is gone. You can tell the difference easily.

In winter five hundred miles of running often dilutes your oil 50% to 60%, if you use "wet" gasoline. But with "dry" gas a full thousand miles shouldn't thin it more than 10%.

QUICK STARTING The "DRY" GAS

Shell Gift Scrip in books of five, ten and twenty dollar value is on sale at all Shell Company operated stations and at many Shell dealers. An ideal gift for anyone who drives a car. Ask about it when you buy gasoline or oil.

BLOW your breath on a cold mirror—see how the vapor settles. The same thing happens in your car; "wet" gasoline won't stay mixed with air when it hits the cold manifold. "Dry" Shell 400 overcomes this—it stays vaporized.

Professional Directory

This directory is especially handy for the newcomer or for the out-of-town reader who may want the name and address of some professional man. It has been carefully prepared and will prove to be a ready aid to any reader in obtaining prompt professional service.
