Speculators In
Check in StreetNEW YORK, Dec. 27 (AP)—
High money rates again blocked
the path of speculators for the ad-
vance in today's stock market. Call
money advanced from 10 to 12 per
cent as banks called \$25,000,000
in loans. Little new money came
into the market from interior banks
and a further stiffening in rates is
expected before tomorrow after-
noon.General Electric again was the
star performer, touching 212,
a new high record, as the tension in
the money market failed to halt
the late opening in prices. Much
of the day's early losses were can-
celled. National Tea shot up 15
points, Safeway Stores, which was
bided today and opened at 171, ad-
vanced to 179. There was heavy
accumulation of some oil and rub-
ber stocks, American Can, St. Jo-

Influenza!Local People Urged to Help
Prevent Epidemic SpreadingEat Wisely, Exercise Reg-
ularly, Keep Away
From Crowded Places
and Treat All Colds
PromptlyMedical authorities now agree
that influenza is a germ disease
—most commonly spread by
breathing in the germs. If the
system is in good shape—the
membrane of the air passages
in a healthy condition—these
germs do not usually breed. It
is only when the bodily resist-
ance is lowered that the germs
do the most harm.Start Protective
Treatment at Once
Right now while influenza is so
prevalent every precaution
should be taken to protect the
air passages. When you feel
one of these "Flu Colds" coming
on don't wait; start the follow-
ing treatment at once:
Get a jar of Vicks VapoRub
and place some up each nostril,
or melt some in a bowl of hot
water and inhale its medicated
vapors. This helps to keep the
air passages in a healthy con-
dition, thus making it difficult
for the germs to breed.At bedtime take a laxative,
if you are constipated, and rub
Vicks VapoRub on the throat
and chest. Vicks medicated
vapors are then released by the heat
of the body, and breathed in all
night long, direct to the air
passages. At the same time,
Vicks acts through the skin
like an old fashioned poultice,
drawing out tightness and pain
and helping the vapors to break
up the congestion. If you feel
feverish call a physician.Avoid Crowds and
Use Vicks FreelyIt is best to keep away from
sneezers and coughers in street
cars and public places. If you
must go out in crowded places
insert some Vicks up each
nostril before starting out. On
returning home melt some Vicks
in hot water and inhale the
vapors. This is a simple pre-
caution which everyone should
take to prevent the flu spread-
ing as it did in 1918 when
millions of lives were lost.acts 2 ways
