Four halves large peaches, 1/2 cup finely chopped nuts, 4 tablespoons minced celery, 4 tablespoons canned shredded coconut, mayonnaise, lettuce.

Drain peaches from syrup and fill cavity with enough mayonnaise to make quite moist. Place peaches, cut-side up, on lettuce and fill cavity with nut mixture, piling it up above peach. Mask with mayonnaise and garnish with whipped cream and a red or green cherry if convenient.

Two halves, one whole peach, for each serving. Fill cavity of one-half with mixture and place another half on top, putting cut sides together. Mask whole peach with dressing.

**ALL SHOULD HAVE PLENTY OF MILK**

Bones and Teeth of Children and Adults Need Milk in the Diet

Two famous nutrition authorities emphasize the need of the human body for the calcium and phosphorus found in milk. Children and expectant or nursing mothers should have from three-quarters to one quart of milk a day, according to these authorities, and other adults should have from three-quarters of a pint to a pint of milk a day. These authorities point out that too little calcium in the diet retards bone growth, causes rickets, may result in bone deformities, produces poor quality of teeth and lowers vigor and vitality. Whole milk also is rich in phosphorus.

Unfortunatly, there are many people who do not like the taste of milk. For all such people, a delicious milk drink should be made. One mother makes her children eager for milk by giving it to them in milk shakes. "They call one drink a chocolate froth," she says. "I take a level teaspoon of cocoa and 1 1/2 teaspoons of sugar, mix in the bottom of a glass with a few drops of milk until it's smooth, add a drop or two of vanilla flavoring, fill the glass with milk and shake it with an ordinary tin shaker. The youngsters are crazy about it," she goes on to say. "They like it sometimes without the chocolate, just the milk and sugar."

Sugar is Nature's ideal flavor. "Help make children drink milk," says an eminent food scientist. "By adding chocolate and sugar. The Solid Institute.
