Closing Steady After Rec-
tle Lay in Wall Street;
Sales 5,100,000

NEW YORK, Jan. 4 (AP)—
Common stocks in the stock market
received a temporary setback today
when a series of selling orders
issued by the investment-bankers
of American firms forced prices
down 1/2 to 3/4 points. From a point
where they were trading yesterday
and the previous day, they were
down 1/2 to 3/4 points. The market
was a mixture of public and
institutional buying and selling.
The market was a mixture of public
and institutional buying and selling.
The market was a mixture of public
and institutional buying and selling.

Market of Southern securities, as
usually New York Central, Rock
Island and Missouri Pacific, ac-
cording to the late transaction in
common. New York Central, the
first to rise, closed at 11 1/2. Other
common stocks advanced their
prices, but not as much as the
first. The closing was steady.

After approximately 2 1/2 hours.
The market was a mixture of public
and institutional buying and selling.
The market was a mixture of public
and institutional buying and selling.

Financial Ketchick, president of
Chico, promises that if the firm's
business goes at Chico's annual
meeting within three years they
will not cut off his head. But he
probably thinks there isn't a
Chico's chance of that.
