## BEWARE THE COUGHS THAT FOLLOW FLU!

They May Weaken Your System and Lead to Serious Trouble

You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. Creomulsion may help you avoid flu, but is not sold as a flu remedy. If you have fever, or think you may have the flu, see your doctor immediately. (adv.)

## NORTON'S KIDDY SHOP

farewell in inner style circles a few months ago, are showing signs of coming back.

At least one style maker is pushing two piece dresses in the special collection his house sends to Monte Carlo. This collection repeats the two piece jumper style many times. Absolutely straight alibonets also are an obvious point of this special style collection. Pleated skirts and straight jumpers of the same material appear in many models.

Light beige mixtures are used for the majority of the revived two piece dresses. Skirts are tight around the hips with pleats usually beginning 10 inches to 12 inches below the waist line. The dresses are button just above the hips.

Coats for winter wear these come in mixtures of high wool or tweed mixtures, cut on straight lines. Most of them have fur collars, usually of beige, some of the new collars are of a gray flax and are wide and outstanding around the face.
