

### Cove Community Party Set For Friday Evening

By Mrs. Leona Price (Observer Correspondent)

**COVE, Ore. (Special)**—Another of the community parties will be held at Morris hall Friday evening. This is to be sponsored by the Ladies Guild, but will be given on the same plan as the club parties which have proven so popular. Games and cards are provided and entertainment is assured for old and young. Refreshments will be served.

Mrs. Laura French made a short visit to Cove Tuesday. Mrs. French is with her husband at North Powder, where they have been residing temporarily during the lambing season.

A candy sale will be held at the basketball game Saturday evening, by the camp fire girls. The next meeting of the camp fire group will be held at 7:30 Monday evening. After the election of officers the evening's program is to be arranged by the youngest members of the group, who are Cleo Conley and Berta Barker.

Parties have been given out and work begun on the play which is to be given by the Woman's Improvement club on Jan. 25.

Services at the Episcopal church will be held at 7:30 Sunday evening. The Rev. P. F. Sturges will hold morning services at the Union church.

The choir dancing class under the direction of E. E. Miller, is growing so rapidly that it will be necessary to divide the members into two groups. Ten students have joined.

The basketball game Friday night between the Sacred Heart academy girls of La Grande and the Cove High school girls, will be of unusual interest to Mr. and Mrs. Ralph Comstock, as they have a daughter on each team. Ruth Comstock, who attends the academy is a member of their team and her sister, Frances, who is attending the Cove school, is on the Cove team.

The Deacons society is holding weekly meetings at present and the next meeting will be held with Mrs. Melvin Lorce Thursday afternoon.

### BYRD SOON TO FLY OVER SOUTH POLE

At his base on the Bay of Whales, far down in the frozen antarctic, Commander Richard E. Byrd is completing his preparations for airplane flights over the South Pole and the surrounding country. This remarkable composite picture shows the interior of Byrd's big Ford plane, the artist having sketched the figures on the photograph from printed descriptions. Byrd is shown at the navigator's table and behind him is the extra gasoline tank built in the plane at the factory. In the cockpit are the two pilots. Eskimo dogs and a sled are carried in the plane so the flyers can return to their base in the event of a forced landing.

### Disease of Eye Remedied by New Electrical Work

**CAMBRIDGE, Mass. (AP)**—In order to correct a condition of eye injury, heretofore beyond the scope of medicine, a method of recording the act of vision electrically has been discovered by a research group at Harvard University.

The electrical recording is made possible by a machine that applies thread-like electrodes to the eye. Their successful use is based on the well known fact that chemical changes can be recorded electrically and the construction of the apparatus to record chemical changes that are believed to take place in the eye at the moment of vision.

The instruments were perfected by Prof. E. L. Chaffee of the Craft Laboratory at Harvard. The specific chemical change sought by Professor Chaffee and his collaborators is in a substance known as visual purple (rhodopsin). This substance is associated intimately with the nerve tips that record and transmit vision. It is dissolved by light, and this dissolving is the chemical reaction measured in electricity.

Thus far the experiments have been confined to the eyes of animals, such as horned toads, frogs and mice. Whenever the eye examined has contained a combination of visual purple and nerve tips (rods and cones) that are believed indispensable for vision, that is, when the eyes have been normal, the wires have registered an electric impulse at the moment when light was turned upon them, but when the purple and the nerve tips have been lacking, the wires have remained dead.

Professor Chaffee's experiments with mice by this method have convinced him that the visual purple is so closely associated with the functions of the retina of the eye, that electrical apparatus may be devised for application to human eyes, that will take some of the guesswork out of diagnosis of various kinds of retinal trouble.

Legumes such as the clovers require a large amount of lime and are sensitive to acidity. It is best, therefore, to apply lime previous to seeding down this type of crop in localities where soil has a tendency to be "sour." The more fertile the land is, the greater the degree of acidity that a crop can successfully withstand.

### King's Condition Gaining Steadily

**LONDON, Jan. 18 (AP)**—It was stated authoritatively this morning that the satisfactory progress reported yesterday in King George's condition had been maintained. The Daily Mail said today that King George had enjoyed long periods of sleep during the last few days and his interest in palace affairs had reawakened, he was not allowed to read, however, since the effort at concentration might prove too great.

The king was having much longer talks with members of the royal family, especially Queen Mary.

### FROZEN TO DEATH

**PRAGUE, Czechoslovakia, Jan. 18 (AP)**—Richard Kalman, chief of the government Press bureau, was found frozen to death in the Rosenberge mountain range northwest of Prague.

Kalman went skiing a few days ago and became lost in a heavy snowstorm. He sank in his tracks and perished before searchers could locate him.

Tablecloths which are worn in the folds may be cut into lunch cloths and napkins.

**QUEEN TAKES LONG DRIVE**  
**LONDON, Jan. 18 (AP)**—Queen Mary, completely recovered from her recent cold, today took the longest drive she has made since King George's illness.

The queen was driven in the direction of Windsor castle and it was understood that she would not return to Buckingham palace until this evening.

**C. H. MARCH NOMINATED**  
**WASHINGTON, Jan. 18 (AP)**—Charles H. March of Minnesota was nominated by President Coolidge today to be a member of the federal trade commission, succeeding Abram Myers, who has placed his resignation in the hands of the chief executive.

## THE AFTERMATH

of influenza, bronchitis, cough, cold or other respiratory infection, is usually a period of great weakness. There is special need for well-selected vitamin-rich nourishment to rebuild resistance. Many people have found nothing quite so beneficial as

## SCOTT'S EMULSION

OF PURE VITAMIN-RICH COD-LIVER OIL

If you are now passing through a time of weakness, why not let it help nourish you back to strength and vigor. Scott's Emulsion is cod-liver oil that is pleasant to take and digests easily.

# ALL-AT-ONCE is Not the Safe Way to Soft-cook 1000 EGGS

Neither is Roasting huge Quantities of Coffee at a Time the sure Way—that's why Hills Bros Roast a few Pounds at a Time by a Continuous Process

Can you imagine what would happen after you had moved the kettle from the fire? Before you could take out all the eggs many would be over-cooked. Certainly it pays to soft-cook eggs a few at a time. You have control!

Hills Bros. control the flavor of their coffee because they roast a few pounds at a time by a continuous process. Every berry is roasted evenly—to that exact point where matchless uniform flavor is assured. No other coffee is roasted this way.

Every bit of the delicious aroma and flavor created by this exclusive process of Controlled Roasting comes to you intact because Hills Bros. Coffee is packed in vacuum. You sense it the instant you open the can.

Hills Bros. Coffee is drunk everywhere. Always ask for it by name and to be sure—look for the Arab, Hills Bros. famous trade-mark, on the can.

**HILLS BROS**

**COFFEE**  
 Fresh from the original vacuum pack—easily opened with the key.

16 ways to please the family critic

no matter how exacting the family critic... there are 16 ways to make him sing your praises... in this famous "Sweet Sixteen" recipe packet... sent free, on your request, by D. Ghirardelli Co., San Francisco, Cal. Newcomers to the West, especially, have been amazed at all the different things this packet shows them how to do... easy recipes, every one home-tested... on cards for your file or to paste in your cook book. Write for yours... free!
