

Child Scalded At Promise But Not Dangerously

By Mrs. William Wiggins (Observer Correspondent)
LOSTINE, Ore., (Special)—The little two-year-old daughter of Mr. and Mrs. Eula Poulson, of Promise, was severely burned from the waist down, when she fell backwards into a pan of scalding water. Although the burns were severe, no serious consequences are expected. Medicine was sent from Wallawa, but Sunday it ran low and the roads were blocked by snow. Mr. Poulson telephoned Mr. Horner, of Powwaka, and asked him if he could get through, and he replied that he would try. He managed to make the trip on horseback after nine hours travel, and then after resting for four hours, he started back with the medicine. After a desperate trip across the canyon which separates Powwaka from Promise, he reached his destination. The ground had failed to see his shadow here Saturday. Sunday was a delightful spring day, but Sunday night, about four inches of snow fell.

SUGAR AID TO ADEQUATE DIET

Encourages the Eating of Healthful Fresh Fruits and Vegetables

It is high time that the public became aroused about the cause for dieting. Medical authorities warn us that nourishing foods are necessary to everyone, and especially to growing children.

Undernourishment is a peril to health. Good feeding is necessary as a protection against tuberculosis and other diseases. Children should be kept overweight for their age and height.

"How is sugar a benefit both to the youth and the adult?" we asked an eminent scientist recently. Sugar in the diet is the fuel preferred by the body. Within a few minutes after eating, sugar appears in the muscles, the fire-box of the body. Think how children and all active people need this perfect fuel in their diet.

Not only that, but sweetening so improves the taste of the maintenance foods that it makes eating them a pleasure.

In addition to milk and milk products, young people and adults should eat a varied diet of cereals and fresh vegetables and fruits. Sugar makes these healthful foods palatable and enjoyable. Modern candy, containing fruits, nuts, milk, chocolate and sugar, is perfect for dessert. Most foods are more delicious and nourishing with sugar. The Sugar Institute.

HOW THEY KEEP THEIR HEALTH AND BEAUTY

Since sun baths have become popular and physicians have decided there is something in ultra-violet rays, besides are turning to Old Sol to retain their health and beauty. Here is a snap of a group of girls taking their dolly sun baths on the roof of one of the resort hotels in Miami Beach, Fla. This treatment, however, is not prescribed for Eastern Oregon in February.

Sleighs In Use Regularly Now In Cove District

By Mrs. A. G. Conklin (Observer Correspondent)
COVE, Ore. (Special)—The weather has moderated somewhat, and milder weather has caused the snow to melt considerably. The sunshine Sunday morning induced many to venture out to attend church services in their sleighs and parking places in front of all the churches were filled to capacity with horse-drawn sleighs, making it seem that we had gone back a decade to the return of the old-fashioned way of transportation. No other mode of transportation is possible except on the highway where the snowplow has been.

The mail is still erratic and infrequent and is still a day behind time, but with the effort it takes to get it here at all, even the old mail is appreciated.

The cream trucks from La Grande and Haines have not been able to come in for cream. The patrons have been obliged to take their cream to a central point and a sled from Cove has taken it to Haines.

Orville Richards, son of John Richards, is very happy these snowy days driving a pair of dogs hitched to his hand sled. One of these dogs has been in training for a couple of years, and the other is a puppy, but they make a fine team. Orville rides or hauls a load and they go as willingly as a team.

The extremely cold weather put a stop to the apple packing, but work will be resumed now. The cold made it difficult for the packers to go to the packing houses and it also made it impossible to deliver the fruit as all hauling has to go out of here by truck to Union or La Grande.

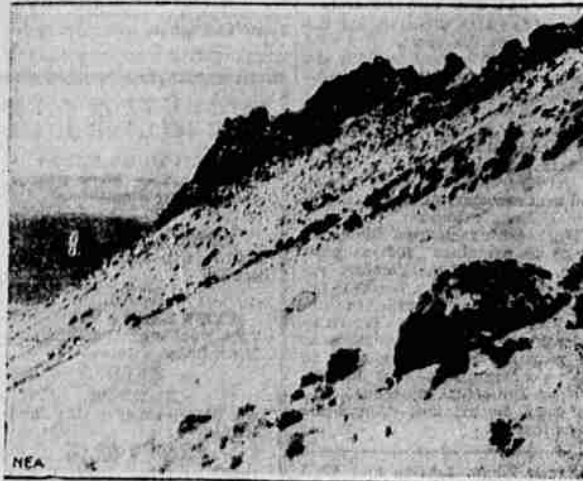

J. T. Howell and Harlan Koger started for La Grande with a load of fat hogs on Monday but only got as far as Cove, when they were forced to turn back and return

World's Cleanest Mountain; It's Soap

Climbing this mountain should be the world's cleanest sport, for it's a mountain of soap. The saponaceous hummock is seven miles from Lovelock, Nev. Surface rocks are globular, sticky on the underside. A little below the surface, the soil can be sliced with a knife, crushed to a paste in the hands and used to remove grease and dirt.
