Price Break In Stock Exchange; Closing Heavy

NEW YORK, Feb. 6 (AP)—The announcement that the Federal Reserve Board would issue a statement on credit conditions after the close of the market threw a bad scare into the stock market today and prices broke sharply after opening interval of strength. Early gains of 1 to 5 points were cut down, or wiped out, and a long list of issues, including several of the industrial favorites, dropped 3 to 10 points. Wright Aeronautical which was strong yesterday, broke 13 points.

Pools stepped aside in the late trading when the offerings became too abundant and bear traders used the opportunity to hammer down high grade rails. Atchafalaya, Union Pacific, Canadian Pacific and Louisville and Nashville were down 4 to 6 points. Several of the metal shares broke sharply. Joseph Lead lost 7 points and Federal Mining 10. U. S. Steel got down to 179 1/2 before it shared in a late rally. The closing was heavy. Sales approximated 4,750,000 shares.

Wall Paper French Idea
The making of wall paper, in its origin, was a characteristically Parisian craft. It began at the end of the sixteenth century with the making of marble or illuminated papers used to line small boxes or chests, and later these were used for decorating walls.

"A Cold In The Head"

This is a misnomer. It should be called "heat in the head,"—an inflammation of the mucous lining of the nose and throat. A person who is subject to "colds" should take warning or the fact that this is an expression of nature, that his body is not functioning normally. A well person does not "take" colds easily. The old proverb "a stitch in time saves nine" should be applied.

It Is Natural to Be Healthy. If You Are Not, There Is a Reason.

World Is Ruled By Executives Who Are More Than 60 Years Old

By JAMES A. MILLS

(Associated Press Correspondent)

VIENNA, (AP)—Most of the presidents, primates, premiers, kings and cabinet members in the world are 60 years old or more. There are few young rulers.

The dean of premiers in Europe is Raymond Poincare of France, who is 65, followed by Baron Tanaka of Japan, who is 65; Venizelos of Greece, 64, and Stanley Baldwin of England, who is 61.

Among the presidents of the world Field Marshal Paul von Hindenburg of Germany leads with 81, followed by Professor Thomas G. Masaryk of Czechoslovakia with 78, Admiral Paul Doumergue of Greece with 74, Gaston Doumergue of France with 65 and Dr. Miguel A. Meneses of Colombia, South America, with 61.

Heading kings, princes and pontiffs who are 60 or more include Prince John of Liechtenstein, who is 88; Pope Pius, head of the Roman Catholic Church, 71; King Gustav of Sweden, 70; King George of England, 63; King Fuad of Egypt, 60.

Among 61 cardinals who govern the Roman Catholic Church longevously is a very marked feature, the average age of the red-robed ecclesiastics being 71. Cardinal Van-

Customers for Generations

In the old world it is not the business alone that is handed down from father to son—but tradesmen so thoroughly master their particular business that succeeding generations patronize the same shops.

We have endeavored to build something of that spirit into our organization—that it is reflected in the quality of the furniture to be seen here is evident.

And the commission of furnishing the home of the daughter of a family whose first home we had furnished—was a more than welcome privilege accorded us last week.
