Edison Answers Questions About Hoover And Navy

PORT MYERS, Fla., Feb. 12 (AP)—Thomas A. Edison, who celebrated his 82nd birthday here yesterday, believes that the administration of President-elect Herbert Hoover will result in greater prosperity to the nation. He gave an affirmative answer to this, the first question of the list submitted for his written answers in his annual birthday interview.

Other questions submitted to Mr. Edison, and his answers were:

Q. What are the dangers, if any, of the increasing stock speculation?

A. Ultimate panic. Loss of confidence.

Q. Have you ever given any thought to the chemical development of synthetic rubber?

A. No. It has no future when rubber is quoted at 23 cents per pound.

Q. Will the manufacture ever be extended to the point where it will be used for the pavement and road surfaces?

A. Yes. Short sections have been in use in Scotland for five years with great success.

Q. How will the success of your rubber experiments affect the future agricultural prosperity of Florida?

A. I believe those states bordering on the Gulf of Mexico can grow rubber with profit to the farmer in case of war prices, but it might be possible in the future to grow rubber and compete with the tropics.

Q. Is it true that you have found a plant which promises to solve the rubber production problem in the United States, and do you hope to develop it this winter?

A. I have found over twelve hundred plants to produce rubber. About forty of them will be cultivated on a large scale.

Q. In cities, comparable in size and general conditions to Port Myers (28,000) should the municipalities own and operate its own public utilities or purchase the service from private companies?

A. Municipalities should not own or conduct the public utilities but should control their operation.

Q. Is it advisable to appropriate an additional twenty four million dollars at this time for prohibition enforcement?

A. Yes.

Q. Should the United States try to have the most powerful navy in the world?

A. It should build in parity with England.
