

JAKE SCHAEFER TRIMS COCHRAN

Holds World's 18.2 Balk-line Billiard Title for the Fifth Time

By Hugh Fullerton Jr. (Associated Press Sports Writer) NEW YORK, Feb. 14 (AP)—Jacob Schaefer, of Chicago, still "Young Jake" despite 24 years of age and a dozen years of major competition, is the world's 18.2 balk-line billiards champion for the fifth time in a period of just over seven years. By triumphing over Walker Cochran, Hollywood champion by the narrow margin of 400 to 325 in the final match of the international tournament, Schaefer won his third championship tournament and his fifth title. Twice he defeated other titleholders in challenge matches under the now-abandoned system.

The brilliant son of the "wizard" of billiards, old Jake Schaefer, won his first tournament in 1921 and played through to victory again in 1924.

President Frank was urging legislative action to keep professorial salaries high. He told the committee that the average annual salary of a professor in Minnesota is \$5,027, in Illinois \$5,002, in Michigan \$5,880.53 and in Wisconsin \$5,506.76.

"I light up a Lucky

whenever I am tempted to eat between meals"

Herbert Bayard Swope

Herbert Bayard Swope, Internationally known journalist, former Executive Editor, N. Y. Morning World

"The activities of a newspaper demand good physical condition. I find Lucky Strike an immeasurable aid in helping me keep trim and fit. Whenever I am tempted to eat between meals, I light up a Lucky. Toasting makes Lucky Strike the cigarette of joy and benefit."

HERBERT BAYARD SWOPE

THE modern common sense way—reach for a Lucky instead of a fattening sweet. Everyone is doing it—men keep healthy and fit, women retain a trim figure. Lucky Strike, the finest tobaccos, skillfully blended, then toasted to develop a flavor which is a delightful alternative for that craving for fattening sweets. Toasting frees Lucky Strike from impurities. 20,679 physicians recognize this when they say Luckies are less irritating than other cigarettes. That's why folks say: "It's good to smoke Luckies."

Note: Authorities attribute the enormous increase in Cigarette smoking to the improvement in the process of Cigarette manufacture by the application of heat. It is true that during the year 1928, Lucky Strike Cigarettes showed a greater increase than all other Cigarettes combined. This confirms in no uncertain terms the public's confidence in the superiority of Lucky Strike.
