## Club Women Hear Program of Music By L. H. S. Pupils

A delightful program of music by organizations of the La Grande High school headed by W. W. N. Schaub, director of public school music in this city, was given yesterday afternoon at the La Grande Neighborhood club meeting. The program, which showed the progress and efforts of the young people of the city in a musical way, was enjoyed by the large crowd of women who attended the program held in the ball room of the La Grande hotel.

Robert Eakin, chairman of the school board, introduced the program, telling what public schools throughout the nation are doing with the musical education of young people. He spoke of the growth of music from a minor place in the public school curriculum to one of major importance.

Joseph Maddy, of Detroit, Mich., supervisor of public school music there, several years ago "started something" when he organized and trained a big orchestra of high school students to play for the convention of the national association of supervisors of music. Out of that grew the movement to organize similar orchestras, and from the La Grande High school in April five students will go to Spokane to play in the Northwest high school orchestra, Mr. Eakin related.

The appearance of the boys' glee club of the high school proved a popular feature yesterday. The club sang several numbers including "Proudly as the Eagle," "The Three Chaffers," "The Nut-Brown Maiden," "Goodbye My Lover Goodbye," "Old Aunt Jemima," and "Vive L'Amour."

The girls' glee club sang "Shoo-shoo," "Twilight Dreams," and "An Irish Folk Song." The numbers were more difficult than those sung by the boys and they too formed an important popular part of the entertainment.

The numbers by the orchestra also evidenced the training and practice received by the members of the organization, who played "Japanese Sunset," "Legend of a Rose," "Tulips," and "Danse Pastorale."

At the business meeting of the Neighborhood club which was held before the music program, Mrs. J. L. Meyers, president, appointed a

committee to help with plans for the celebration of national garden and home beautiful week scheduled for the dates of April 22 to 27. The committee includes Mrs. Robert Eakin, chairman; Mrs. E. P. Mossman; Miss Margaret Anson, Mrs. E. Kiddle, Miss Blanche Clark, Mrs. Herbert Hanna, and Mrs. Evelyn Rosenbaum.

Help of the high school students and others in the city will be enlisted by the club in preparation for the event, Mrs. Meyers announced.

Mrs. Ray Murphy lead an interesting study on "Turner," the famous English artist, at the meeting of the Art Research class held Monday afternoon at the home of Mrs. H. G. Smith.

The study class of American and English poetry conducted by Miss Mabel Doty in this city, held an unusually interesting meeting last night at the library, when Mrs. Harvey F. Matthews was in charge of the program. The part which the negro plays in the realm of literature was the topic. The members of the class brought visitors for the meeting last night and in all 30 were in attendance.

Mrs. Matthews told of the negro poets, Paul Lawrence Dunbar, Claude McKay, Langston Hughes, and Miss Doty told of Countee Cullen. Negro poems were also read by Miss Doty.

After the study program refreshments were served. Mrs. Evelyn Bennett was chairman of the committee.

A great deal of fun was had when Mrs. Beatrice Young told fortunes by tea leaves.

## Miss Klippel Talks At Y. W. E. A. Meet

Not the least in the favor of the evening were numbers by a boys' quartet which sang "Old Aunt Jemima" and "Goodbye My Lover Goodbye." Norman Slank, Kermit Rogain, Henry Culp and Cleland Wallinger, taking part.

Henry Culp, Clark Truckman and Russell Nelson made up the 10 which entertained with some Spanish numbers, also enthusiastically applauded.

At the close of the entertainment Mrs. Wallinger announced that the "French maids will now serve a Spanish lunch." It consisted of beans, olives, figs, fruit juice and crackers.

The members of the committee in charge of the evening were: Mrs. Wallinger, Mrs. May E. Speckhart, Mrs. Erna Wallinger, Bertha Wallinger, Mrs. Lena Fuller.

## MONOTONY IN DIET IS UNDESIRABLE

Eat Wide Variety of Foods Sweetened for Enjoyment

If a diet expert could visit every home in the United States and find that all the diet mistakes into one phrase, it would doubtless say, "monotonous." Food authorities are complaining that the richest nation of the world is sacrificing both health and enjoyment by eating monotonous, unappetizing foods.

There is a remedy that, with a little thought, can be applied in every home. Make a study of all the varied healthful foods, being sure to include milk, eggs, cereals, vegetables, fruits and meats. Serve varied foods in the regular diet, and learn to use the right amount of sugar to make the various dishes tasteful and delicious.

It is simply impossible to keep well without eating the varied foods that contain all the health elements. It is almost impossible to eat these foods unless they are pleasing to the taste. Sugar, in addition to being a wonderful food, is nature's perfect flavor.

Make delicious milk-shakes with milk, sugar and flavoring. If you want your family to like eggs, learn how to cook them so they are as healthful as egg-nogs. Remember applesauce, stewed dried fruits and cereals for breakfast. Remember the rule of one cooked and one raw fruit and vegetable a day properly sweetened, and cakes, cookies, and ice cream for dessert. Most foods are more delicious and nourishing with sugar. The world's only truly fresh tea -- not merely because it is sealed in vacuum -- but because it is fresh to begin with -- fresh and fragrant as they enjoy it in the Orient. You will never know how much that means, till you try it. No other tea is like it -- nor can it be -- for it's a closely guarded Schilling secret.

**Queen Rayon Threatening Throne**  
Once Held by Old King Cotton

LOWELL, Mass. (AP)—King Cotton no longer is monarch of all the surveys in this century-old cotton textile centre. His reign, dating back to the foundation of the community, has been long and generally prosperous, but a new ruler is threatening the throne—Queen Rayon.

New demands and new markets in the cloth manufacturing field are causing Lowell to adapt itself to altered conditions. Today, at least four of the city's major factories are turning out 5,000 to 30,000 pounds weekly of this comparatively new material.

More significant, perhaps, is the assistance which the Lowell Textile institute, a state school, is giving the textile industry in its study of the new field. As far back as 1898 instruction was given in the basic laws underlying the manufacture of artificial silk. Thus, when industry finally recognized the value of these fiber products, graduates of the school found no great difficulty in entering into manufacture of rayons. Research still is being carried on by graduates and the field of dyeing has proven fruitful, for old dyes were often inadequate.
