Society Observes Anniversary of George Washington

day anniversary of the Colonial president is the time which many of the important organizations of this city choose to hold annual gatherings and big events of the year including those of pioneers, schools, churches, lodges, clubs, and civic organizations.

Loyal Sisters Aid In All-Day Session

The general Loyal Sisters Aid met yesterday at the home of Mrs. Walter Price at 808 Fourth street with 35 members in attendance. Some of the women were there for an all-day session, part of which was spent working on a quilt. At 1 o'clock a potluck luncheon was served.

Mrs. Rochester, president, presided at the business meeting. Division A of the aid reported that plans are being made for a cooked food sale to be held Saturday.

Division B announced that a hard times social will be held tomorrow night at the church to which the public is invited.

Mrs. H. E. Putman announced that her Sunday School class will present an evening program sometime soon, the proceeds to go into the building fund of the church.

The next meeting of the aid will be held Mar. 20 in the annex of the church. At that time a potluck luncheon will be served at 1 o'clock.

The Baptist study class met at the parsonage yesterday afternoon for a discussion of the book, "What Next in Missions." Mrs. H. A. Fox gave the report of the third chapter of the book.

At the business meeting the women decided to receive talent money March 16 instead of at the first meeting in March.

Ten members were in attendance.

The Bible Searchers' class of the Presbyterian church met yesterday afternoon at the home of Mrs. Gustav Wissler. Mrs. H. H. Cleaver was in charge of the devotional. Miss Katherine Wissler entertained with two piano numbers. Part of the afternoon was spent working on a quilt.

Mrs. Eva Wissler assisted the hostess in serving refreshments.

Farm Pointers

Plant only such varieties of alfalfa as are most hardy in your particular locality to reduce the chance of loss from winter-killing. No means of prevention are known.

Alfalfa plants injured by winter not only are greatly weakened, but they are exposed to attack by germs in the soil that ordinarily are harmless.

Crop rotation is nearly as effective as farm manure and complete commercial fertilizers in maintaining and increasing soil productivity, and when rotation and fertilizing are used together the one practice adds to the benefits of the other.

MENUS

By Sister Mary
BREAKFAST - Orange juice, cereal, cream, poached egg on spinach, toast, milk, coffee.
LUNCHEON - Casserole of vegetables, apple and raisin salad, rye bread and butter sandwiches, cottage pudding, milk, tea.

DINNER - Lamb chops, potatoes au gratin, stewed celery and carrots, lettuce with Roquefort cheese dressing, canned green peas, plain cake, milk, coffee.

This dinner is planned for the housekeeper's afternoon "out." If the potatoes are cooked and diced in the morning, the whole meal can be prepared in 30 minutes from the time the cook puts on her apron. The cake, of course, was baked in the morning and the lettuce washed and crisped ready to use.

Casserole of Vegetables
One cup dried lima beans, 2 cups diced celery, 1/2 cup minced green pepper, 4 medium-sized onions, 2 cups canned tomatoes, salt and pepper, 2 tablespoons butter.

Wash beans and soak over night in cold water to cover. In the morning cook until tender, letting water cook away as much as possible without burning. Drain off surplus water and add celery, pepper, onions peeled and sliced, tomatoes, salt, pepper and butter. Turn into a buttered casserole and bake one hour in a moderate oven.

Thin slices of bacon can be arranged over the top before baking and the butter omitted if preferred.

An Iowa farmer was arrested for selling liquor concealed in pumpkins. Do you suppose the police overheard one of his patrons exclaiming "Some punk-just?"

FLOWER TRIMMINGS on straw are cited as popular for spring. Dark blue hair braid is combined with a lacquered forget-me-not crown, in Dutch effect, in this example.

though at present there are few such farms. With temporary pastures and a rotation of grazing and plowing for reseeding land can be stocked heavily with sheep year after year. Necessary winter feed can be produced from regular temporary pastures, extra seeding of leguminous crops can be harvested for hay, and with the production of silage for part of the winter roughage the land required is reduced to a minimum.

Now is the time to look for warbles on cattle and to encourage neighbors to do the same. A concerted drive on this pest is necessary to eradicate it from a community.

"I recommend a Lucky in place of a sweet. Toasting has taken out every bit of harshness in the Lucky Strike tobacco. All that remains is the splendid Lucky flavor - an excellent substitute when your appetite craves a sweet but your figure must be considered."

Note: Authorities attribute the enormous increase in Cigarette smoking to the improvement in the process of Cigarette manufacture by the application of heat. It is true that during 1928, Lucky Strike Cigarettes showed a greater increase than all other Cigarettes combined. This surely confirms the public's confidence in the superiority of Lucky Strike.
