Market Weakens In Final Trading In Wall Street

NEW YORK, March 11 (AP)—Growing uncertainty over the credit situation was reflected in the erratic price movements in today's stock market, which was featured by another series of bullish demonstrations in the Radio Corporation issues. The general list appeared to be under pressure, declines in a long list of active issues ranging from 1 to 7 points.

Lower call money rates stimulated the buying of a select assortment of public utility, chemical, drug and railroad equipment shares in the late trading. People's Gas ran up nearly 7 points to a new high record at 277. The closing was irregular.

Total sales approximated 3,500,000 shares.

Radio (old) dropped more than 20 points when the whole market weakened in the final trading.

BEWARE THE COUGH FROM COLDS THAT HANG ON

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action: it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing

elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

Prince Of Wales May Become Regent

LONDON, Mar. 11 (AP)—Whether H. R. H. the Prince of Wales would be the second regent to act for the British crown since 1800, was the chief topic of today in parliamentary lobbies, government legal circles and the news-paper world.

So far, the only authoritative information is that the whole constitutional question arising from the king's illness as it affects the forthcoming general election, is under consideration by legal advisors of the government.

Upon the progress of his majesty's recovery, which is not satisfactory, depends the whole matter of the necessity of a regency, doctors attending the king have warned the public that his illness is still a matter of months during which he must avoid any sustained effort of body or mind.
