MONEY SCARE IS OVER IN STREET

Call Money Renewed at 15 Per Cent But Stocks Move Upward

NEW YORK, Mar. 28 (AP) - Wall Street appeared fairly to have recovered from its "money scare" today and prices rallied vigorously under the leadership of the communications and oil issues. Many stocks recovered all of the ground lost in the drastic reactions earlier in the week, and a few moved into new high levels for the year.

Trading continued at a fairly brisk pace, with indications that the day's sales would run well above 5,000,000 shares. As was expected, call money renewed at 15 per cent but the high rate attracted fresh funds here from Canadian and interior cities, and the rate dropped to 12 in the early afternoon. While this was still a high-carrying charge to pay on stocks which probably yielded an average of less than 5 per cent, Wall Street expects that the distribution of about \$500,000,000 in dividend and interest payments next week will relieve the situation.

The market will be closed tomorrow in observance of Good Friday, and again on Saturday, which has been declared a special holiday by the board of governors, in order to enable brokerage houses to catch up with the vast accumulation of work. Profit-taking sales took the edge off the rise in several of the fast-moving shares. Radio sagged 4 points and Western Union 2. Absorption of other stocks continued on a large scale, particularly after the call money rate dropped to a per cent. Wright Aero, Crosley Radio and National Biscuit improved 5 to 6 points. The market closed strong. Total sales were about 5,000,000 shares.
