NEW YORK STORE Destroyers of High Prices

Stock Exchange Observes Good Friday Holiday

NEW YORK, Mar. 29 (AP)—The New York stock exchange, curb market and all commodity markets are closed today for the observance of Good Friday. The security exchanges also will be closed tomorrow, but the New York Produce Exchange will be open. All other commodity markets will be closed.

The volume of sales in March on the New York stock exchange passed the 100,000,000 share mark for the third time on record for one month. Stock sales were approximately 20,000,000 shares ahead of February. Bond and curb stock sales also were ahead of February.

WASHINGTON, Mar. 29 (AP)—Congressional leaders are closely watching the fluctuations of the stock market and their effect on the public.

Senator Glass, of Virginia, a former democratic secretary of the treasury, has advanced a proposal that the Federal Reserve Board discuss (Charles E. Mitchell, president of the National City Bank, as a Class A director in the board for supply money to the stock market this week when call loans were boosted to 20 per cent.

Senator King, Democrat, Utah, is preparing a bill to authorize the Federal Reserve banks to furnish loans to be used in the marginal trading operations on the stock exchanges.

However, there is a general disposition at the capitol to leave the situation for the present at least, in the hands of the Federal Reserve Board. The board is seeking to check the constant growth of loans by member banks to brokers and dealers.

GENERAL ELECTRIC Refrigerator

WHEN the proud owner of a General Electric Refrigerator takes her friends in to see it, the first comment is "Why it's so quiet—you can barely hear it." The unique construction has established a new standard for quiet operation. This design, however, accomplishes something even more important. It makes possible the top-unit arrangement. Placing the unit on top makes it possible to enclose all the machinery in an hermetically sealed steel casing. There, always oiled, it remains safe from dust and difficulties. No one can tinker with it—no one ever needs to. Quietly, economically, the General Electric Refrigerator gives you the perfect refrigeration that does away with food spoilage and safeguards health. It provides a generous supply of ice cubes. A small amount down and conveniently spaced payments buys any model. Come in today.
