

ARCHITECTS

The experienced builder knows that he can save money on even the smallest jobs of construction and remodeling by having the plans drawn by an architect. You eliminate the chance of mistakes—you are sure that the finished job will be as it was planned.

BUILDERS

Long experience in building is reflected both in lowest possible costs and in the highest type of workmanship. I have had years of experience in every type of construction, in the metropolitan as well as the smaller cities—will gladly discuss plans and cost estimates with you.

AL HEISNER
Contractor and Builder

MATERIALS

To buy good materials on a low price level is the secret of building economy. Contractors or individuals will find that it pays both in money and in satisfaction to consult us on purchases of cement and lime. If you are planning a new lawn, let us quote you on grass seed.

HEATING

It is well worth the price to have a good heating plant designed and installed by competent heating engineers. With nearly 40 years' experience in heating and venting, we are able to give you a highly successful installation. Let us make an estimate on a new plant or for putting your present one in good working condition.

No charge for estimates.

NOW IS THE TIME

to BUILD REPAIR REMODEL

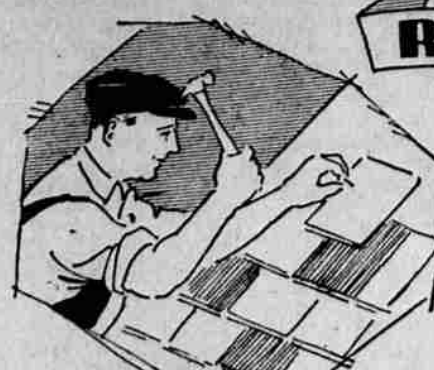

GET ready for Spring! Your home needs renovating after the Winter months—inside and out. The cost is little compared to the lasting satisfaction and increased value to your property.

Experts in their own lines can fulfill the tasks of making repairs far better than anyone else. The "handy man" has been replaced by systemized skill which was not available in the old days. To the remotest detail your needs can be met by these artisans who know.

Whether you want an addition, a porch, re-roofing, painting or re-decorating of the rooms, the names listed here are those of men who can be relied upon to do the finest work, and who will gladly furnish estimates if you desire.

ROOFING

Roofing is my one and only business. I can put on or repair any kind of roofing made. Stop and think how costly a cheap or poorly laid roof can be. My work has been adjudged satisfactory for the best buildings in town—experts know that a good building deserves a good roof. In planning a building or remodeling job start at the top with a good roof.

PAINTING

What is a good painter supposed to know? First, to choose the right ingredients and mix them properly; second, he must know how to put on paint. We admit we know and do these two things. And yet we consider it a highly important part of our work to give you complete color schemes for both inside and outside... in other words, more than a mere paint job. We have the experience to give you complete satisfaction in every way.

DECORATING

This is about my first ad - my work has always spoken for itself because I know only one way of doing it, and from what my customers tell their friends, it must be the kind of work that will please the most fastidious. Ask some of these people and find out—then the next time you need a paper hanger or an interior decorator, call me and I will do my best.

LIGHTING

We have a large force of trained electricians who can do any kind of a wiring job for you. If your home is inadequately wired to suit present-day needs, we can show how you can have an up-to-date lighting installation made without inconvenience and at a small cost. See our showing of new designs in Electric Chandeliers.

LANDSCAPE

You can beautify your lawn and increase the value of your property by letting us do your landscaping. We are here in La Grande 12 months out of the year to stand back of every shrub or tree we sell you. Right now our stock is complete and the season is on.
