

You need no longer be told that you have an expensive foot--

ENNA JETTICK Shoes

VIVIAN

add pep to your step

Abuse not use makes feet grow old--and the most common form of abuse is the wearing of misfitted shoes. If you feel that because you choose to pay only \$5 to \$6 for your shoes you must take whatever you can get in the way of fit you are mistaken. ENNA JETTICKS come in all sizes and all widths from AAAA to EEE--THAT'S WHY WE CAN AND DO FIT YOU AND AT A MODERATE PRICE.

HILL'S Dependable Quality. Dependable Value.

OFFICE CAT TRADE MARK B. JUNIUS

An exchange asks what became of the thousand million packages of chewing gum manufactured last year? Well, just run your hand along the under side of the lunch counter and you will find where a lot of it went.

Siren Staff Mrs. Brown: "So your husband was lost at sea?" Mrs. Green: "Yes, a bathing beauty got him."

Missionaries report that the savages in the southern part of the world are not living on a very sound economic basis they're eating up their prophets.

"Mummy, do you say, 'It is me, or 'It is I'?" "Always remember the rhyme: 'It is I, said the spider to the fly.' 'I see--but couldn't you say, 'It is me, said the spider to the fly?'"

Mrs. Highty-Tighty: "And these are all the vacuum cleaners you have?" Dealer: "Yes, madam. I have shown you all we carry."

Mrs. Highty-Tighty: "Well, I'm afraid they won't suit. I want one from the Louis XV period, to match my antiques."

Sunday School Teacher: But during those joyful festivities, there was one, I regret to say, who took no interest whatever in the proceedings and utterly refused to participate in the general rejoicing. He was not moved by the happiness of the father at the return of the wayward son and sulkily refused to take in the merry-making. Can any one of you tell who this was?" Boy: Yes, sir. The fattest calf.

"What do you do when your deferred payments come due?" "Me? I defer paying them."

PORTLAND LOSES DOUBLE HEADER

Beavers Return Home for Hollywood Series With .500 Percentage

Pacific Coast League Standings table with columns for team, W, L, Pct.

SAN FRANCISCO, APR. 8 (AP)—It's never too late for improvement. The struggling Seals proved that to a turn yesterday when they won the second of a doubleheader from the up and coming Mission Reds.

The Oaks took a doubleheader from Seattle, winning the morning battle, 5 to 2, and the afternoon clash, 11 to 10. The morning play was won in the first inning when Lombardi, giant young catcher of the Oaks, smashed a line drive through center field into the club house, with a full house at every base, making a complete circuit for four runs. The lead was good for the remainder of the game.

The afternoon game almost resulted in disaster for Oakland when Seattle scored eight runs in the ninth inning to take the lead. The Oaks came back with a couple more tallies to win. Young reprobate McEvoy in the ninth for Oakland.

Angels Split Even Marty Krug's Angels split even with the Hollywood Stars in the Sunday double bill, and took second place in the coast league standings. The Angels dropped the first encounter, 8 to 5, but came back in the second, a five inning game to win 4 to 3. The second game was called by agreement to enable the Stars to catch a railer for Portland where they will perform against the Beavers this week.

Portland Walked Portland's Senators had loads of luck, or perhaps it was

plenty of pep for they took both ends of a doubleheader from the Portland Beavers, winning the first at Stockton, 14 to 1, and the second at home, 12 to 2. The victories gave the Senators the series. Tomorrow the eight teams of the Pacific Coast league will tangle as follows:

AT STOCKTON: First Game-- R. H. E. Portland 2 5 1 Sacramento 14 16 0 Batteries: Fullerton, Baerht, Shanklin and Volkman; Crandall and Koehler.

AT SAN FRANCISCO: Morning Game-- R. H. E. San Francisco 3 11 0 Missions 6 8 1 Batteries: Davis, Jones and Schmidt; Krause and Bahwin.

AT LOS ANGELES: First Game-- R. H. E. Los Angeles 5 12 2 Hollywood 3 10 1 Batteries: Holling, Miller and Sanber; Hulvey, Kinoy, Shellenback and Basser.

Second Game-- R. H. E. Los Angeles 3 4 0 Hollywood 3 4 0 Batteries: Hartout and Haugh; Johns, Marty and Basser.

AT OAKLAND: Morning Game-- R. H. E. Seattle 2 6 1 Oakland 3 7 0 Batteries: Collard and Rosebani; Coz; Dumovich, Hurst and Tomhardt.

Afternoon Game-- R. H. E. Seattle 10 15 1 Oakland 11 15 1 Batteries: Kallio, Fisch, House, Pignras, Wilson and Steinbeck; Heubaker, McEvoy, Young and Lombardi.

JACKSONVILLE, Fla., April 8 (AP)—Norris Keelmer, 300 pound self-styled "human cork" today failed by one hour of equalling the world's endurance swimming record of 72 hours and 22 minutes when he collapsed in a bathing pool here. He entered the water at 9:55 a. m. Friday.

Swimmer Fails To Make New Record MOVEMENT MAY CAUSE CHANGE IN THE A. A. U.

CHICAGO, April 8 (AP)—A movement, which may change the complexion of the Amateur Athletic Union of the United States and its policies toward amateur and professional sports, has been started

West Superior On Grid, Track Easterner Says

PRINCETON, N. J., April 8 (AP)—Track and football supremacy will continue in the far west, in the belief of Keene Fitzpatrick, trainer at Princeton.

For 33 years he has been coaching and training track athletes, doubling now and then to develop punters and drop-kickers.

The New Rite Three He saw the day when the east symbolized by the big three of Harvard, Yale and Princeton dominated every branch of college athletics. He saw the great educational institutions of the mid-west and far west rise in man power until they were able to take track and football supremacy westward on their banners. He thinks this new big three, California, Southern California and Stanford, will continue to do so.

The east has lost its supremacy in track, Fitzpatrick believes, because of the climate in California where stars in the field events can practice outdoors all year round while easterners are forced indoors by cold and snow. He points out that the University of California won two intercollegiate track and field championships with a total of less than ten points in running events.

Bigger And Brawnier Fitzpatrick agrees with "Chuck" Logg, crew coach, that boys from the west come bigger and brawnier these days than eastern youths. Both think, however, that the advantage is almost lost to the west because of the youth and adaptability of eastern youngsters. The west also seems to have an advantage in numbers with many universities enrolling from 4,000 to 12,000 students.

The veteran track coach can see no clash between track and football. There were seven track men on the Stanford eleven that whipped the Army gridiron squad last fall.

CHICAGO, April 8 (AP)—A movement, which may change the complexion of the Amateur Athletic Union of the United States and its policies toward amateur and professional sports, has been started

by Avery Brundage of Chicago, president. Brundage has addressed a lengthy questionnaire, including every possible phase of amateur and professional sports, to the 133 governors of the A. A. U. and when their answers are in, he expects to see a change in the constitution, which hasn't been altered materially since it was adopted in 1888.

After issuing the questionnaire, Brundage departed for New York where he, with a committee of A. A. U. officials, will confer Tuesday with Major John I. Griffith, executive vice president of the National Amateur Athletic Federation and an executive of the N. C. A. A., both rival organizations of the union, in an attempt to patch up differences and effect a working agreement with American colleges.

There has been considerable complaint about the A. A. U. and its policies lately," Brundage explained. "We want to show everyone we are open to constructive criticism and are willing to correct any defects, if there are any. Brundage further explained the A. A. U. was formed when most amateur sports were competed in by non-college men. Today, college sports have grown to be the leaders in the amateur field, he said.

Texas Quintet Wins National Basket Tourney

CHICAGO, April 8 (AP)—A team of young giants from Athens, Texas, with a distinctly futuristic style of play, today held the most cherished prize of high school basketball, the national interscholastic championship.

The title fell to the sturdy Texans Saturday night as they capped a spectacular week's campaign in the University of Chicago's eleventh annual tournament by a 25 to 21 decision over Clasen, a fast, scrappy team from Oklahoma City.

Couples and critics of basketball, who watched Athens' march to the crown, were interested in its style of play, which they termed futuristic in pattern. Averaging approximately six feet two inches each, the Texans played a peculiar overhead game, which none of their opponents could solve.

This "high" game with its high passes aimed at leaping mates is difficult and the percentage of errors is high. For that reason, the champions were superior throughout offensively. Too, they covered rebounds off their opponents' basket with hawklike tenacity, tipping many of them back for field goals. On defense, too, they excelled. Their height gave them several more chances at being fouled and consequently more free throws, while they employed they employed three or four men for defensive purposes around

La Grande Gun Club Drops Two Matches Sunday

Chances for the La Grande Gun club to wind up the trapshooting season in the first division in the Oregonian telegraphic shoot, took a slump yesterday when the local gunners lost two out of three matches at the Lone Tree grounds.

The La Grande men, shooting against Wasco, Baker and Huntington, registered a 71. Wasco dropped to 68 but both Baker, with a 74, and Huntington, with a 75, won from La Grande.

Before Sunday the local club stood at 444 in the percentage column, with eight won and ten lost. Today the standing is 425, with nine won and 12 lost. Only two Sundays remain in the shoot and in order to wind up in the first division La Grande must win five out of six remaining matches. If only four were won, the final standings would be below the 500 mark.

Weather was cold and disagreeable at the Lone Tree grounds yesterday but in spite of that, one scattergun artist, Tracey Hollister, shot a perfect 25. Dr. R. G. McCall and J. R. Smith tied for second with 23 out of 25.

A check today of the total targets made by the clubs in the Oregonian shoot shows La Grande in a tie for 12th place. In the first division in this respect. However, the standings are counted on percentage alone.

The clubs stand as follows (out of 525 birds shot at): Corvallis 521; Halsey, Bend, Portland and Klamath Falls 515 each; Heppner and Hillsboro, 514 each; Coquille, 512; Salem, Roseburg and Nestucca 511 each; La Grande and North Bend 507 each; Baker 505; Monitor 503; Huntington 501; Eugene 497; The Dalles 493; Echo 492; Prineville 477; Ponolston 473; Pilot Rock 462; Wasco 459; Sutherlin 452; Helix 437 and Toledo 408.

Third place in the tournament, which attracted 40 teams from 32 states, went to the most picturesque team in the competition, Jews, Colorado. This team from a mountain village of 90 persons was shoved out of the championship running by Clasen high in the semifinals, but came back to win third place by defeating Jackson, Michigan, 21 to 17, after making a brilliant rally in the last period.

Decimal Point Is Cause of 3 Deaths

LONDON, April 8 (AP)—An inquest today into the deaths of three boys who came up to London for study recently to be treated for ringworm, brought out that a misplaced decimal point in a prescription caused the fatalities.

The boys, Charles, Leslie and John Thomas, aged 10, 7 and 5 years, respectively, died under mysterious circumstances after being given medicine from a prescription compounded at the hospital to which they applied. The jury decided they had died from poison accidentally administered.

The testimony showed that a mistake made in the calculation of a quantity of a drug resulted in the oldest child being given 25 grammes instead of .25. The others also were given proportionately ten times the desired quantity.

TERRE HAUTE, Ind., April 8 (AP)—A country school principal's search for wild flowers resulted yesterday in discovery of the body of Edith Mae Hildorf, 10-year-old West Terre Haute nurse girl who disappeared January 27.

Lodged against a log in Busseron Creek near Paxton, Ind., hands and feet wired together and a wound in the top of her head, the body was found by Nimrod Slaven, Pleasant-

COLDS MAY DEVELOP INTO PNEUMONIA

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for halting up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

CREOMULSION FOR THE COUGH FROM COLDS THAT HANG ON

CHEVROLET goes high-compression! And... its new owners should avoid hard carbon from burned oil\*

AN ADVANCE in motor design—you hear of it everywhere. High-compression, higher powered motors; yet more economical, smoother running. Nearly all the cars built this last year or two are higher compression, among the newest and most notable the Chevrolet six, the announcement of which was repeated by millions of lips. This modern trend in motors caught many oil refiners unaware! Their fine lubricants had a fault—serious when engines were roomy inside, but a positive menace in new-type motors. This fault is the tendency of their oils to form flinty layers of hard carbon. And there is no room for carbon deposits in the new high-compression motors. Hard carbon causes knocking, engine strain, power loss. Flakes grind like grit through tight pistons and bearings, wearing them away more rapidly. Yet one motor oil meets new conditions squarely. It forms only 1/3 to 1/5 as much carbon as even the most expensive oils you can buy! The little it does form is soft and soot-like—a kind that blows harmlessly away through the exhaust. It is Shell Motor Oil, a remarkable new lubricant. It withstands violent temperature changes without breaking down; keeps its sturdy body long after ordinary oils would disintegrate. New day motorists acclaim Shell Motor Oil as the answer to the high-compression lubrication problem—keep away from hard carbon! \*Naturally, motor car manufacturers do not specify brands of oil. None is factors recommended for the new Chevrolet. But every modern car should have an oil that forms no hard carbon. Ask any lubrication expert.

SHELL MOTOR OIL

"If I Only Had The Necessary Capital" How often do you hear that when a business opportunity presents itself to one of your acquaintances? How often is "lack of capital" given as the reason for a business failure, for inability to "get ahead" financially? The times are not infrequent when a man has borrowed to the limit of his credit and lacks just a comparatively small amount of capital to take advantage of some business opportunity. Then he can appreciate the importance of building a reserve fund, of preparing in advance for the opportunities that are certain to come -- of preparing for the business reverses that are possible in every business. A reserve in your business can be more than a protection -- it is an investment earning a good interest rate through Certificates of Deposit. Your banker will gladly discuss how it may be started.
