Miss Morgan To Stand Trial On Nuisance Charge

NEW YORK, Apr. 13 (AP)—Helen Morgan, singer of plaintive melodies and the only woman ever to threaten the laurels of Texas Guinan as the most popular night club hostess on Broadway, will on Monday stand trial on the same charge of which Texas was acquitted.

Miss Morgan, musical comedy actress, is charged with maintaining a nuisance through sale of liquor at the Helen Morgan club at which she was hostess. She quit the night club business after her arrest last fall.

Texas was acquitted Thursday in 64 minutes by a jury of middle-aged men who took but two minutes. None had ever been to a night club. The verdict was greeted with cries of "Whoopie" by the spectators, and Texas lavishly distributed kisses among the spectators and jury.

Her only regret, she said, was that by her acquittal she lost \$50,000 that had been offered her by a newspaper syndicate to write a series of articles on life in jail.

To Norman J. Morrison, special deputy United States attorney general who prosecuted her, she said, "I want to thank you. You were a perfect gentleman."

"Miss Guinan," said the prosecutor, "you were the toughest customer I ever had."

TALL ANNUALS FOR STately GROUPS

There isn't a very great variety of tall annuals to deck the back of the border, that is, annuals that reach a height of four feet or more. Of these the cosmos is one of the finest. The best quality bloom is produced by some of the older forms which are so late about getting into action that it is hardly worth while growing them unless the seed is started in the house in March with transplanting to make the seedlings stocky. Lady Lenox is one of the finest of these late bloomers.

The early blooming types give fine flowers and come into bloom in time to pay for their seed and rent for their root room. They may be sown outdoors as soon as the ground is workable but care should be taken to protect the seedlings if a nippy night with frost comes along.

The ornamental tobacco, particularly the variety Nicotiana sylvestris, are stately back-of-the-border plants with huge heads of long tubular flowers terminating in a white star. It is a stately annual.

We now have a race of miniature flowered sunflowers around three to four feet in height that rival the galliardias in coloring, being banded with red and ranging from creamy white to deep yellow, all with fine dark contrasting centers. They are fine for cutting and are worth a trial. They are one of the fine novelties of the year among the annuals.

The old spider plant, Chomea paniculata, continues to be a favorite in both its white and purple forms and is much used in park planting. Its curious spidery (low) form and ornamental foliage never fail to attract attention.

Among plants approaching the tall class are the colossal zinnias and the African marigolds. They will make three feet or more and give a wonderful display of bloom for the last half of the summer. Not much is gained by sowing either indoors as soon as May 1 in most sections they will catch up with transplanted plants from earlier sowings. The African marigolds should be staked as soon as they have attained a height of 18 inches as their heavy foliage makes them easy victims of winds.
