Women's Clubs Of District To Meet Here On May 4

The district No. 5 meeting of the Oregon Federation of Women's clubs will be held in La Grande Saturday, May 4, in La Grande High school for the purpose of organizing the district along the same lines as the state federation. Mrs. F. L. Meyers, president of the La Grande Neighborhood club, has appointed delegates to represent the club at that time. They are: Mrs. A. R. Hunter, Mrs. A. T. Hill, Mrs. John Thomsen, Dr. Margaret Ingle, Mrs. E. P. Mossman, Mrs. Donald Pague, Mrs. J. F. Ravenscroft, Mrs. Hugh Brady, Mrs. J. T. Richardson, Mrs. J. W. Knowles, Mrs. Ray Murphy, Mrs. Charles Playle, Mrs. Sherwood Williams, Mrs. George T. Birnie, Mrs. H. E. Dixon and Mrs. H. N. Ashby.

All club women of La Grande and of the other cities in the district are invited to attend the meeting whether or not they are members of the Neighborhood club or another club affiliated with the state federation.

The program will be very interesting and it is hoped that a large number of women will take advantage of the opportunity to attend, says Mrs. George T. Cochran, first vice president of the federation.

Mrs. G. J. Frankel, of Portland, president of the state federation, will be present, and Mrs. Sadie Orr-Dunbar, dean of general federation chairmen, also plans to attend.

Altogether in the district there are 40 clubs affiliated with the state organization. The counties are Walla, Union, Baker, Malheur, Harney, Morrow, Umatilla and Grant.

The district convention is the outcome of the decision made at the state convention last year at Klamath Falls that the state meeting be in session every two years and that the state be apportioned into five districts, each to function as the state federation would and to hold conventions. The meeting in La Grande will be the first one of district No. 5 and will be the organization meeting.

MENUS

By Sister Mary

Too often when a child starts to school the care with which a mother has watched his diet is relaxed. At the table he is allowed a greater variety and candy appears like a bridge between meals.

During the first school years a child's diet should be as carefully chosen as at any time of his life. He has many new conditions to meet. Being away from home, mingling with many other children, a certain amount of restraint and confinement produce excitement and nervous strain. Extra effort in the way of caring for food difficult of digestion should be spared him.

His long morning hours of play

in the sunshine and his afternoon nap are suddenly denied him and his food must be selected with this in mind.

Excitement and fatigue retard digestion so the highly active child will find ten or fifteen minutes rest before eating his noon meal beneficial.

At this age a child is losing his first teeth and getting the second and permanent teeth. Those little teeth that are growing loose and "scurchy" are tender and annoying and certain foods irritate them. Crisp foods that necessitate chewing are essential but tough fibrous foods that lodge between the teeth are not desirable. After one or

two bites they will be refused or if eaten will be swallowed without thorough mastication.

A well nourished child has more resistance, is capable of throwing off colds and is less susceptible to contagious diseases than one who uses every ounce of energy he has to digest his food and keep going.

Milk, eggs, vegetables, cereals and fruits, should form his diet. His foods should be simply and attractively cooked and served.

Left-over egg yolks may be used for "salad" dressing, for breadings, chops or croquettes, in custards, in sponge cakes, in fillings for cream pies, or as garnishes.
