### FORD OUTPUT TO BE INCREASED

Ford Motor Company has announced that it will increase its production of automobiles. This is due to the high demand for the company's cars, and the fact that the company has a large backlog of orders.

### Heavy Volume of Orders Received in Addition to 1934 Production

The heavy volume of orders received by Ford Motor Company in 1935 is a testament to the popularity of the company's cars. The company has received a large number of orders for its new models, and is working hard to meet the demand.

## The GENERAL TIRE

Wetervans of Two Summers  
You'll find the same General Tires that started in service this summer on the same cars next summer, rolling up records of almost unbelievable mileage, comfort and safety.  
The answer is General's constant access in reducing internal friction and offsetting the ravaging effects of increased road heat and faster speeds in hot weather. You can go through the winter getting double protection from skidding with General's dual-grip tread. There's a great satisfaction and feeling of true economy when you see a peak of your tires as veterans of two summers.

## As new and different now as it was when introduced

Build the same. A New Oakland All-American Six. Making its bow to the public. Settles everyone talking about its distinctive beauty... about its original design.  
And now, what's new, passed. You see the New Oakland here... there... everywhere you go. Other cars have appeared in the collecting crowd... offering for the collector's eye. But the distinction of the All-American continues... unaffected. Its design and construction different today, yet the same in principle.  
Like a masterpiece... like a fine painting... it grows on you... impressing you more favorably with every passing week. The better you know it the more you will respect the New Oakland All-American Six.  
Consider the different price as well as the different value comparing automobile values. Oakland's continued success is due to its constant change in design and financing.
