expected and E. D. Towler, principal of the local high school, is receiving entry lists at present. Bendleton, Baker, Union, Milton, Freewater and several other schools are expected to enter strong teams, although dopsters declare the meet will resolve itself into a duel between the Buckaroos and Tigers for first and between Milton-Freewater and Union for third.

Second Phase of Duel

In addition to the scramble for Eastern Oregon honors, Bendleton and La Grande will also be fighting for meet honors over a period of years. Records are heavy between 1899 and 1918 but since 1919 Bendleton has won seven track titles and La Grande six, and the Tigers will be making an effort to even the score with Bendleton while the Bucks will be just as eager to extend their lead to two.

Finals Will Be Run Off at 2 o'clock

Preliminaries in all events excepting the mile, half mile, 440-yard dash and the relay will be Saturday morning commencing at 10 o'clock. The finals will be run off at 2 o'clock.

Normal School Faculty

Normal school faculty, J. T. Longfellow, superintendent of schools, stated that Mr. Nussbaum's work as music supervisor in the La Grande schools would not be interrupted by his normal school duties, although he will have an assistant in the grade schools here next year.

Normal School Faculty

Mr. Nussbaum, who came here three years ago from Nampa, Ida., has been very successful in the La Grande schools, as may be evidenced by the remarkable showing made by the high school band when it placed third in the state contest at Corvallis recently. Mr. Nussbaum's activities will be divided between the normal school and the La Grande public schools but will not conflict with each other, enabling him to continue to take care of his work in the La Grande schools in nearly the same manner as at present.

Other members of the normal school faculty are not known here

but more details of the appointments are expected in the near future.

APPROVE APPOINTMENT

WASHINGTON, Apr. 30—(AP)—President Hoover has approved the appointment of J. Henry Scattergood, of Philadelphia, an assistant commissioner of Indian affairs.

KETTLE DRUMS SECURED BY LOCAL BAND

Kettle drums, otherwise known as tympani, called the most pleasing of percussion instruments, have arrived in La Grande to become part of the municipal band directed by Andrew Loney Jr. They will be heard for the first time when the band appears in a concert for music week next Tuesday night at the high school auditorium.

These drums are practically indispensable to the rendition of the heavier works and are used a great deal by the better known composers.

Equipment such as this is very seldom seen in bands in cities of this size. They will be played by Grover Crews, a man of many years experience," says Mr. Loney.

The retail price of the drums is \$500 and they are 25 inches and 28 inches in diameter.

"They are played by beating on the heads with two soft beaters. They are usually tuned to the tonic and dominant, but can also be tuned in octaves and fourths and even thirds," Mr. Loney explains.

known in La Grande as he has sung here before. In "Ah, Moon of My Delight," "That Knows No Wane," Mr. Denham is said to reach a climax of excellence for the selection is the gem of the cycle.

In a recent criticism of the performance appearing in a Baker paper the following was said.

"Two new artists, Mrs. David I. Stoddard, soprano and Mrs. Francis Oliver, contralto, appeared on the program. Mrs. Stoddard's voice is of a lovely lyric quality and she sings with warmth and clearness. Mrs. Oliver has a voice of remarkable color, height and freshness of tone."

EAST NORMAL COURSES ARE ANNOUNCED

health education, principles of public school art.

Third quarter: Survey of American literature, science and civilization, principles of geography, American history, primary or intermediate education, educational psychology and health education.

Fourth quarter: contemporary literature, development of the modern world, the use of mental and educational tests, school organization and management and observation and classroom practices.

Fifth quarter: English, survey of children's literature, contemporary civilization, elementary economics, directed teaching and selective courses.

Sixth quarter: School and community, history or education, child or adolescent psychology, nature study, responsible teaching and selective courses.

Entrance requirement will be graduation from a standard four-year high school or its equivalent. Students are urged to submit their credentials to the registrar two weeks before the date of their matriculation.

Students who graduate from the standard two-year course will be eligible to secure a one-year state certificate valid for teaching in the elementary grades and in the one, two and three-year high schools.

The holder may, after six months of successful teaching experience in Oregon, secure a five-year certificate valid for the same type of work.

This certificate will lead, in turn, to a life certificate when the applicant has taught for 30 months in this state.

It is also announced that, in order to accommodate students who are unable to pursue two years of work without interruption, the school will offer an elementary course, extending through four regular quarters. Students who complete this course will receive a one-year certificate for teaching only in the elementary grades.

Tuition charges The tuition charge is fixed by the state at \$6 per term. A student body fee of \$1 and a health service charge of \$1 will make a total of \$10 a quarter, \$30 for the regular school year, or \$40 for the four quarters.

Speaking of La Grande and its surroundings, the booklet is quoted as follows:

"The recreational advantages of La Grande and surrounding area are unexcelled. The 'Wallawa Wonderland,' a region of lakes, streams and rugged, snow-capped mountains lies within easy reach for weekend trips. To the southwest are the beautiful North Powder lakes, likewise easily accessible. The surrounding forested Blue mountains afford unlimited opportunity for short hikes, or longer mountain trips. Within the city, or nearby, are tennis courts, an excellent nine-hole golf course, hot springs and well-kept motoriums. Every opportunity is available for interesting and healthful recreation.

An Ideal Location

In selecting La Grande as the location for the school, a community was chosen which is admirably equipped with the social, residential and recreational requisites of an ideal educational center. A particularly healthful climate adds materially to the attractiveness of this progressive city of 11,000 people. This is due to the altitude of 2,783 feet, a consistently dry atmosphere, an average rainfall of 20 inches. La Grande is a city of attractive homes and progressive industry. An excellent public school system, a public library, civic organizations of various types, and effective agencies such as Boy Scouts and Camp Fire Girls, contribute to the intellectual and social welfare of our community. Public health is safeguarded by an excellent system of city water supplied through a combined gravity and artesian well system.

The campus of the school occupies over 20 acres within easy walking distance of La Grande, and yet offers space for an athletic field, and gives room for expansion. An elevation overlooking the city and the beautiful Grande Ronde valley, makes an ideal location for the first unit, which will ultimately be the central or administration building of the new group.

The style of architecture is that of the Italian renaissance. An exterior finish of buff stucco, embellished with stone at points of interest, combined with a roof of terra cotta tile, creates a pleasing effect particularly suited to the sunshine of La Grande.

Living Accommodations

In speaking of the living accommodations, the booklet says: "The fine civic spirit of La Grande has prompted the citizens to show a splendid spirit of cooperation in offering pleasant living accommodations in the homes of the city to the students. . . Room and board will be available at from seven to nine dollars a week."

The booklet also points out the excellent opportunity for practice teaching under actual conditions of public school work which will be provided.
