Egg Demand Is Brisk; Butter Market Is Firm

PORTLAND, Ore., May 2 (AP)—Egg and butter prices were unchanged at the dairy exchange today.

At a late Wednesday session of the exchange trading was resumed in current egg receipts with bids ranging from 26 to 26 1/2c. The following grades and regulations were stipulated:

"Current receipts shall be fresh eggs weighing not less than 56 lbs. to the case and contain not more than seven dozen undergrades, of which not more than one dozen may be loss, including rots, blood rots and shortages."

The demand for eggs was brisk with sellers absent. Tons of the butter market was firm.

Items were more plentiful, but the demand is equal to the supply and prices were maintained without weakness. Broilers were abundant with prices steady.

Country dressed meats were stationary.

Strawberries were tending downward. The Florin berries in 20 lb. crates, were selling for \$3.50 to \$3.75.

Supplies of lettuce and cabbage were liberal with lettuce values tending for declines.

Normal Fruit And Berry Crop Likely

SALEM, Ore., May 2 (AP)—Fruit and berry crops in the Willamette valley should be normal if tenacity and some of them will about the average if present indications hold true, in the opinion of the largest growers and packers here, although all are agreed that it is yet too early to make accurate estimate.

A short, retarded blossoming season for pears due to cold and wet weather during April has left the experts guessing as to what the result will be in the set of fruit, but there are no indications that the trees or buds were damaged.
