In all the New Pastel Shades.

\$4.95 to \$5.85

Western Inc.

Men's Wear.

A SEASONABLE RECIPE

Holland Dandies

- One half pound lard
- One half pound butter
- One cup sugar
- One quart sorghum
- One teaspoon salt
- Four teaspoons cinnamon
- One teaspoon cloves
- One teaspoon nutmeg
- One half pound finely chopped citron
- Two cups finely chopped nuts
- Five teaspoons soda
- One-third cup water
- Flour to thicken.
- Mix ingredients in the order given, dissolving the soda in the water. Pack dough in stone crock and cover. When cookies are desired, cut off the amount wanted, form in a roll and slice, then bake in a moderate oven 12 to 15 minutes. Will keep all winter if kept in a cool place.

Gets Rheumatic And Neuritis Sufferers Out Of Bed

Those who have tried everything without benefit will find Casey's Rheumatic Remedy the most startling discovery of recent times for pains of rheumatism, neuritis, neuralgia, sciatica, lumbago. The relief is quick and sure, reduces pain and swelling through direct action on the stomach, liver and kidneys. Guaranteed by L. & L. DRUG CO. \$1.50 per bottle.—Adv.

Over the Valley

Mabel E. Morton, Valley News Editor

Phone: Residence, 826-J; Office, Main 37

Mrs. Sanderson Worse—Friends of Mrs. E. Sanderson, of Summerville, will regret very much to learn that she suffered something of a relapse Friday and since that time her condition has not been so encouraging. Her trouble now seems to be with her heart.

Drive To The Lake—Mr. and Mrs. J. A. Gaskill and daughter, Miss Wilma, Mrs. L. C. Ruckman, Sam Gaskill and Grand-ma Gaskill, all of near Imbler, drove to Hot Lake Sunday and visited with Frank Webb and inspected his fine poultry pens. A part of the day was also spent at the W. A. Hutchinson home in La Grande.

Move to Farm—Mr. and Mrs. W. H. Perry, who have been living in Island City, have moved to the Clyde Kiddie ranch and will operate that this season. Mr. Perry will have charge of the dairy and poultry end of the business.

Entertains Aid—Mrs. Beattie Westenskow was the hostess to the members of the Imbler Ladies aid society at her home Thursday afternoon, the attendance numbering 25 in addition to the children. Mrs. J. A. Gaskill, president, lead the devotions and had charge of the business meeting. After this Mrs. Westenskow announced a program of music, conducted some contests and later served some refreshments.

Have Church Dinner—Members of the congregation of the Community church at Island City held a splendid church dinner Sunday, the members bringing their contributions and the whole having been served cafeteria style. The affair had been originally planned on account of the visit of Hans Roan, of Boise, but for some reason the speaker did not arrive in time and Rev. Hansen filled his own pulpit.

Meeting of Club Leaders—Men and women, young men and young women from all over the county, who are leaders of the Union county 4-H clubs, will have a meeting this coming Saturday in the Postoffice building. The meeting is announced for two o'clock and those calling it are hoping for a large attendance of leaders. The meeting follows suggestions made by experts at the Economic conference in February.

To Go To Roseburg—E. J. Murphy, who has been for years a resident of the Allice neighborhood, left this morning for Roseburg, Oregon, where he will enter the Soldiers' Home and reside there in the future. Mr. Murphy is one of the most prominent veterans of the Civil War residing in this valley. In fact he is one of the few remaining veterans. He has attended all of the national gatherings for many years. His health has not been the best for some time and he is taking advantage of this provision made by the government.

Mrs. Tucker Hostess—Mrs. Loren Tucker will have as her guests Thursday afternoon at her home in the Iowa district the members of the Allice Ladies aid society. Assistant hostesses will be Mrs. Herbert Speckhart, Mrs. Louie Standley and Mrs. J. H. Standley.

Has Chicken Pox—Delbert Anson, living on a farm near Island City, is among those who have the chicken pox. Chicken pox is detaining quite a number

over the valley these days and the old bugaboo, the mumps, is appearing in different localities. It seems scarcely possible after the epidemics of mumps the last year and a half that there could be so many who have escaped thus far.

Dinner Postponed—The dinner which the Blue Mountain grange was to have served the members of the Union county chamber of commerce a week from today, has been postponed on account of the convention of the State Medical association. The new date will be announced later.

Attend Co. Meeting—Mrs. Hugh Huron, Miss Anna Brooks, Mrs. Frank McKinna, Mrs. Jim McKinna, Mrs. Sam Kinchi, Mrs. Vern Rug, Mrs. Doris Childers, Mrs. McGoldrick, were among those from the Imbler, Rhinehart and Pumpkin Ridge neighborhoods who drove to Union today to attend the county gathering of Pyschian Sisters.

Oiling Highway—One way traffic has been in vogue on the La Grande-Elgin highway for a distance of about two miles, near Conley, where oiling operations have been going on. The state highway outfit are working now repairing the roads which broke up after the heavy snow went off.

Weekend Guest—Miss Merle Frizzell, of Pleasant Grove visited over the weekend with her friend, Miss Frances McKennon, near Imbler.

To Entertain Club—Mrs. Sarah Anson will entertain the members of the Countrywomen's club Friday afternoon at her home in Grange hall neighborhood.

Guests Saturday—Mrs. Guy Brace, Mrs. Vernon O'Hara, Mrs. Albert O'Hara, Mrs. Goodwin and Mrs. Nixon, all of Weston, Oregon, were guests Saturday at the home of Mr. and Mrs. W. R. Ledbetter, at Allice, having come to attend the gathering of club women and accompanying Miss Eva Ledbetter home for the day.

Aid to Meet—The members of the Island City Ladies aid society will meet Thursday afternoon at the home of Mrs. Garrett Blokland for a social meeting. Assisting Mrs. Blokland as hostesses will be Mrs. Bowers and Mrs. Hawley. The program will be in keeping with Mother's Day.

Concludes Visit—Mrs. Helen Cowgill, of Corvallis, assistant state club leader who has been in the county working with county superintendent of schools E. A. Sayre, in visiting clubs already organized and trying to organize new ones, left yesterday for her home.

Returns from Portland—C. H. Bidwell, of Island City, who has been in Portland for a few

weeks under medical care, has returned home.

Elect Officers—At a recent meeting held at the home of Mrs. Garrett Blokland, the Epworth League of the Island City church chose their officers for the coming year. They are as follows: president, Esther Blokland; first vice president, Blass Leslie; second vice president, Edith Herman; third vice president, Boush Trout; fourth vice president, Mildred Blokland; secretary, Lester Blokland; treasurer, Ruth Stanley; pianist, Ethel Hansen.

Here From Montana—Mrs. H. J. Campbell, of Laine, Montana, is in the valley making a visit with her four sisters, Mrs. Jim McKinna, Mrs. H. A. Watson, Mrs. Denison and Mrs. Garpes.

Raising Wyandottes—Mrs. A. F. Ingram, at the Pine Creek farm, has gone into the chicken business again this year, after having been quite successful last year. Mrs. Ingram has recently secured 525 White Wyandotte chicks from Nampa, Idaho, and thus far has had good luck with them.

Judge Chosen—Dean H. J. Gramlich, of the Nebraska State university, a nationally known expert on livestock, will be one of the judges who will take the ribbons at the Eastern Oregon Livestock show this year, according to the announcement of Tom Smith, secretary of the show, and Robert Whytecombe, chairman of the judges committee, who were instrumental in obtaining the services of the noted judge. In addition to Dean Gramlich, one and possibly two other experts, will serve at the big show at Union, dividing the classes according to their own fields. Officials of the Union show are striving to obtain leading men in each of the fields of animal husbandry, so that exhibitors and onlookers at the ring side can depend on the judgment of the visitors at the best possible interpretation of modern type.

Have Misfortune—Squirrel poison caused the loss of a bunch of five little pigs on Day German's place north of Pleasant Grove recently. The poisoned grain had been hanging in a shed and was blown down, placing it in reach of the pigs.

Goes to Other Valley—Mrs. Sarah Tuttle, of Elgin, left the first of the week for Medford, having been called by the serious illness of her daughter-in-law, Mrs. Lee Tuttle. Mrs. Tuttle, who had been ill for three or four weeks, was apparently improving when the word came that a change had come in her condition.

To Meet Tomorrow Night—The "State Grange at La Grande in 1929" committee will meet tomorrow evening in the chamber of

Young Farmers To Compete For \$500 Premiums

A total of more than \$500 in cash prizes and premiums are being offered by the Eastern Oregon Livestock show, to be held in Union June 5, 6 and 7, to students enrolled in vocational agricultural departments of high schools at Enterprise, Wallawa, Imbler, Union, Halfway and Ontario. In addition to the cash prizes offered by the show association, the young farmers will compete for many specialties offered by interested business men and stockmen, as well as competing in the open classes.

Exhibits of the vocational students will be livestock chosen from their products, which they are required to maintain on their home farms in order to apply the principles of animal and crop husbandry studied at school. Projects featuring four kinds of livestock will be judged against other projects shown in each of the groups. Exhibits in the four groups are as follows: Dairy, one cow, two years old or older; one two-year-old heifer; two calves; or one bull two years old or over; Beef, one bull, two years old or older; one steer; one breeding cow, two or more years old; or two beef calves. Sheep exhibits will include one ram, yearling or older; one ewe and lamb; two ewes, or two lambs. In the hog projects, exhibits will be any of the following: one sow, yearling or older; one boar, yearling or older; one sow and litter; or four pigs at least four months old.

First premiums for each of the four groups of projects will be \$20, with nine places, the ninth prize being the sum of \$5.00. "Although commerce office, it is necessary that there be a large attendance.

Merited Praise—The real young people of the Pleasant Grove district have their own grange organization—the Pleasant Grove Juvenile—a group of young folks who meet regularly, take a splendid interest in their work and are really accomplishing much besides "growing up" in the order. In a recent copy of the Washington State Grange News, the wife of the editor, Mrs. May B. Nessly, had quite an article on the work among juveniles and in proving her point she mentioned the following experience:

"In June, 1927, Mr. Nessly and I attended the session of the Oregon State grange at Baker. It was a fine session and we saw some very nice work, but by far the best work we ever saw in the way of putting on floor work in a grange was that put on by a juvenile team, from a little place called Summer-ville, in Union county, Oregon, at the foot of the Blue Mountains, off of the railroad and on the old trail that crossed the mountains from the Grande Ronde valley to the Walla Walla valley in the pioneer days. The oldest member of that team was, I think, less than 12 years of age. The master, a little girl of nine, could give 99 per cent of the subordinate grange masters lessons in conducting the work. Not a look was in sight, not a falter or stammer made, by these 13 children who were the officers of this juvenile grange." The organization referred to was the Pleasant Grove juvenile.

UNION DAIRY HERD IMPROVEMENT GROUP IN SUCCESSFUL YEAR

The first year of its existence, closing May 1, was regarded as a very successful and profitable one, according to the members of the Union County Dairy Herd Improvement association in annual meeting last week at Hot Lake. The work of the year was gone over carefully and all were gratified at the accomplishments of the year. Thirty-five members were present at the meeting, the number having been lessened, in all probability, by the fact that many members were working in the fields and were unable to leave.

The task of signing up members for another year is under way now, and different members of the board of directors are accompanying county agricultural Wray Lawrence in trips to sign up the old members and secure new ones from among those in the dairy business in Union county. Already 18 or 18 dairies have been signed up for, the total number required being 26.

Officers were chosen for the coming year, the result of the election being the return to office of all those who have served during the past year. The board of directors, as chosen is, Dr. W. T. Phy, R. S. Comstock, Ernest DeLone, S. J. Balle, and T. B. Johnson.

Stock judging, horsemanship, and a list of other vocational contests, including leather work, soldering, rope work, rafter cutting, milk testing, blacksmithing, fitting stock for show, hog calling, concrete work, estimating weights of stock and making dairy rations, will be additional features. The "Congress of Future Farmers of Oregon," as it is called, replaces the meeting of students held at the Eastern Oregon Experiment station at Union when more than 100 students gathered for contests and demonstrations.

PAIN IN YOUR SHOULDER? Use Tysmol for Relief

Knife-like jabs of pain in the vicinity of the shoulder blade are generally due to neuritis, brought on by exposure to draughts or sudden changes of weather. In some cases there is stiffness or soreness in the muscles, making it difficult to raise the arm.

The safest and easiest way to relieve such an attack is to apply a small quantity of Tysmol over the affected area. This soothing, healing preparation is quickly absorbed through the pores and carried to the throbbing, aching peripheral nerves. The relief usually stops at once, and in a very short time the last trace of soreness should disappear.

Tysmol is absolutely harmless—free from dope. Recommended for all forms of nerve pain, whether caused by neuritis, neuralgia, sciatica or rheumatism. Sold by leading druggists. Always on hand at Glass Drugs, Inc.—Adv.

The Cherokees

The Cherokees were the largest and most important Indian tribe originally east of the Alleghenies, perhaps the highest in culture and intellectual receptivity north of Mexico.

Marriage brokers in Berlin are reaping a golden harvest. Many raises this year have outstripped all previous records.

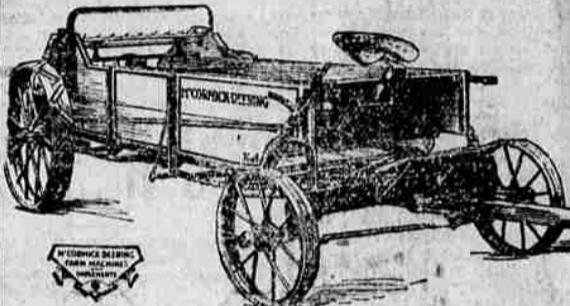

Get-Together Club Is Entertained

By Mrs. Charles Grandy (Observer Correspondent)

LADD CANYON (Special)—Mrs. A. E. Peabler was a recent hostess to the Get-Together club, with most of the members and one invited guest in attendance. Mrs. W. O. Sherwood and Mrs. Harry Hansen conducted two contests, Mrs. Ada Clark winning the prize in the first and Mrs. Alex Ferguson the other. Mrs. Laura Braden and Mrs. Clyde Hopple's names were drawn to furnish the entertainment at the next meeting, which will be at the home of Mrs. Henry Peabler. Mrs. Peabler served a tray luncheon at the close of the afternoon.

"Why" I use California's Famous Gasoline of Power

Harry Hartz World Famous Speedway Champion

SPEED... power... mileage! Perfect carburetion under every condition! Each of these qualities, desirable in a gasoline for every day motoring is absolutely essential in the grinding blur of the speedway.

"Nowhere else is the performance of your motor so entirely dependent upon perfect fuel and lubrication. A few seconds' delay; failure to respond with instant acceleration; inability to maintain heart-breaking bursts of speed means loss of fame and fortune to the man behind the wheel... sometimes life itself."

"No driver would jeopardize his chance of victory with any but the finest gasoline that can be had—gasoline that has actually been tested and proved under every conceivable condition. It is significant that for more than six years the greatest drivers in the world... men with the choice of every gasoline made... have used Richfield exclusively."

"I have used Richfield Gasoline and Richfield Motor Oil since I commenced racing. For every day use in the present day motor Richfield is unquestionably the best motor fuel that is made. I could never think of using any other because I know by actual test it means maximum motor efficiency and minimum depreciation." (Signed Harry Hartz)

Kill weeds in this width!

YOUNG weeds die good—old weeds die hard. For weeds have a rapid root growth and they must not be allowed to rob the money crop of moisture and food.

The "Caterpillar" Tractor goes forth to give them battle. It wipes them out in a wide swath—35 feet of smoothing harrow behind a 2-Ton, 20 feet behind a Model Ten. For the "Caterpillar" rides swiftly and lightly over plowed ground—without packing, with a surprisingly small fuel consumption.

Then, if necessary, one final clean-up after the

corn or wheat is up a few inches. A weed-free field means a bigger crop this year—fewer weeds next.

The secret? The track of the "Caterpillar"! Small pressure per square inch—lessened rolling resistance—no packing!
