

# Over the Valley

Mabel E. Morton, Valley News Editor  
Phones: Residence, 526-J; Office, Main 37

**Relatives**—Mr. and Mrs. George Hardy and children, Vera and Grover, of near Imbler, have returned from a visit with her sister, Mrs. George Vance and family in Enterprise.

**Remain Till Saturday**—Miss Lottie Black, teacher of the Summerville school, will not start her home at Jacksonville until Saturday of this week, although school was out last week. She will remain for the 8th grade exams which come this week and the annual of Miss Anclair's class in Klain Friday.

**Planning Reunion**—Members of the Hulke clan are already beginning to lay plans for their annual family reunion, which comes this year on Saturday, Sunday and Monday, June 22, 23 and 24. The reunion will be held again at Rhoadpoint Inn, the home of Mr. and Mrs. J. E. Hulke, of Iowa district.

**Shipping Certified Seed**—According to county agriculturist Wray Lawrence, W. R. Ledbetter, of Allice, is making a shipment of his certified Notched Gem potato seed this week to farmers in Walla Walla county.

**Oldest Mother**—Grandma Culver, of Grange Hall neighborhood, was awarded a prize for being the oldest mother present at the church service at the Christian church in La Grande Sunday. She was similarly rewarded at the meeting of the Blue Mt. Grange last week. Grandma Culver prizes very highly the magnificent bouquet of flowers she received Sunday from her son, Clark Culver, of The Dalles.

**Club Leader Coming**—Leonard J. Allen, assistant state club leader, will be in Union county Friday afternoon and Saturday of this week. It was announced yesterday, Mr. Allen is coming at 11's particular time. It is stated, to show the boys and girls in the different livestock clubs over the valley how to care for and fit their animals for exhibition.

**Going to Portland**—George Hardy, of Imbler, is in Portland this week having gone with a shipment of livestock from that section of the county.

**Is Improving**—Herbert Speckhart, of Iowa district, who received such painful injuries in a fall Saturday is getting along quite satisfactorily, though still suffers from his injuries. Mr. Speckhart fractured a number of ribs and lost several teeth, besides minor bruises when he fell from a scaffold and struck a foot in his shanty shed. He is at the Grande Ronde hospital.

**Deserves a Medal**—From Perry comes a story which is not often duplicated. On Wednesday of the past week, while Miss Gladys Dean, teacher in the Christian high school in Perry, was alone with a small child in the office building, a large heating stove fell over upon the child, pinning him to the floor, burning him severely and endangering his life. Miss Dean, though slight in build, without a moment's hesitation, seized the hot stove with her bare hands, lifted it bodily and held it until the child was free, though severely injured. Although the hands of the courageous young lady were stripped of their skin, and the flesh seared and bleeding, she carried the child several blocks to his home, never mentioning her own injuries and refused personal attention until he had first received medical aid. Her injuries were so severe that she could not use her hands, nor will she be able for some time to come.

**Comes in Plane**—Residents of the section between Imbler and Allice were no little excited over the weekend, when an airplane circled around about the neighborhood, flew very low and finally landed in a field near the Carl Brown residence. After this had occurred several times, it became known that Mr. Brown's hero, John Wier, of Mabton, Washington, a flier for several years, had purchased a plane in Boise and dropped down here for a short

visit with his relatives. He remained in the valley long enough to give all the members of the Brown family some rides, and then continued his journey to his Washington home.

**Observe Mother's Day**—Members of Pleasant Grove grange met at their hall for an all day meeting Sunday in order to pay their tribute to their mothers—living and dead. Dinner was served at noon—a tempting chicken dinner with about 110 people present. After dinner the company broke up into three crowds. The girls had a very exciting ball game, the older and the younger, though perhaps they object to that classification. The boys went to the regular base ball grounds and had a few hours playing. The adults remained in the hall where, after singing "America," ex-Governor Walter M. Pierce, in a half hour address, paid a glowing tribute to the mothers. It was late, and raining, when the company finally dispersed, such a good time they were having.

**Substitute Teaching**—Mrs. Howard Smith has been teaching the primary grades in the Perry school. She is finishing out the school year for Mrs. Cox, whose husband passed away a few days ago.

**Drive to Corvallis**—Claude Anson, William and Melvin York, of Island City, drove to Corvallis last week to attend the state track meet and also to visit among friends for a few days. They will return home some time this week.

**Weekend Visitor**—Miss Dorothy Patterson, of Union, went to Island City and spent the weekend with her friend, Miss Leah Smith. The two young ladies were sorority sisters at the university.

**Doing Practice Teaching**—Miss Carmen Daniel, of Shastah district, who is having her first year of training at the Monmouth Normal, has come to Valseck, Oregon, where she will do her practice teaching in the third and fourth grades in the Valseck school.

**Mother Improves**—Word from Mrs. J. P. DeLong, formerly of Valeria district, now with her daughter in Portland, is to the effect that she is improving slowly.

**Dinner Saturday Evening**—Mt. Fannie grange is planning to serve at least 200 people at the chicken dinner which they are staging at the I. O. O. F. hall on Saturday evening. It is a public dinner with the object a most worthy one.

**Visit Cut Short**—Miss Clara Fries, who had come home a few weeks ago expecting to visit her parents, Mr. and Mrs. Henry Fries, in the Pleasant Grove neighborhood, for at least two months, was called to St. Vincent's hospital in Portland last week and obliged to terminate her visit. Miss Fries is a graduate nurse.

**Visiting Relatives**—Mrs. Ida Hendricks, who has been for several months at the home of her uncle and aunt, Mr. and Mrs. James Standley, in Iowa district, is visiting this week at the Will Hughes home near La Grande. Mrs. Hendricks expects to spend the next few months visiting among her relatives here and in Walla Walla county then in Washington state before starting back to her home in Ft. Madison, Iowa.

**Returns Home**—Mrs. William Seel, her son-in-law and daughter, Mr. and Mrs. Omar Adams, have returned to their home in Monterey, California, following a week's visit at the home of their relatives, Mr. and Mrs. J. O. Anson and family. They made the trip in their car.

**Enrollment Progresses**—Work continues quite encouragingly in the enrollment of members for the Union County Fair-Heed Improvement association. A canvass is being made now for the purpose of securing the 25 days service which is required to make

the association possible. Up to the first of this week 26 of the 28 days had been signed up for. Several new members around Summerville are reported, while some in other localities, members last year, whose herds have been quite small, have dropped out.

**Secures Teacher**—Miss Ivy Lammun, who is at present a student at Monmouth Normal, has been elected to teach at Pleasant Grove next year. Miss Lonna Piles, who was one of the teachers this year, was re-elected for another year.

**Mr. Dahlstrom Improves**—Word from John Dahlstrom, of Moss Chapel district, who is at the Grande Ronde hospital, is encouraging to his friends. Mr. Dahlstrom sustained a fractured collar bone and severe cuts and lacerations all over his body in a tractor accident last week.

**Blue Mt. Grange**—Will meet at their hall this coming Saturday, the meeting to begin at 11 o'clock. There are to be a number of important business matters to be discussed.

**Returns Home**—Mrs. I. B. Wilson, of Imbler, who has been a patient at the Grande Ronde hospital, having had an appendicitis operation, has returned to her home. She is reported to be doing all right now.

**Driving New Car**—Howard Smith, of Island City, is among those residents of the valley who are driving new Fords.

**Remains Same**—Mrs. K. Murchison, of Pleasant Grove, who lies very ill at her home, remains about the same. She has frequent heart attacks. Mrs. Murchison is well beyond four score years and her complete recovery is not hoped for.

**Good Racing Program**—Devotees at the shrine of fine horsemanship will have ample opportunity to enjoy fast horse racing this year at the Eastern Oregon Livestock show at Union, June 5, 6 and 7. The stock show is included in the event of the Inland Empire Racing association, which will also be patronized by horsemen from the Mid-Columbia racing circuit, so that speedy race events are presented as important features of Eastern Oregon's greatest livestock show. The quality of the racing promises to be in keeping with the excellent exhibits of fine sheep, dairy cattle, beef cattle, hogs and horses to be displayed at the Union show according to show officials.

The dates of the Inland Empire circuit meetings are as follows: Union, May 23-June 1; Union (Eastern Oregon Livestock show), June 5, 6 and 7; Wadsworth, Wash., June 8; Dayton, Wash., June 14-15; Crab Creek, Wash., June 18-20.

**To Build New Hall**—At the last meeting of the Union county Pomona grange there was a good delegation present for the White Eagle grange over near Pilot Rock in Umatilla county. The work of that subordinate is of great interest to grangers here, who will be interested, also, in a notice appearing not long since in the Pilot Rock News regarding the new hall which the White Eagle people are soon to erect. "Construction of a hall to be begun at once by the White Eagle grange on the Frank Sloan property five miles north of Pilot Rock. A lease was consummated Tuesday, the terms giving the grange approximately an acre of ground for 50 years, and the privilege of renewing it for another 50 years. A fund of \$500 is on hand and to this will be added donations received in a canvass the completion of the building will be followed by an expansion program."

possible to start the work now, and it is expected that the lower room will be completed before the next rush of farm work arrives. Plans call for a structure 34 by 70 feet and a basement, later to be fitted up as a dining room and junior grange room, and the main auditorium, with stage, dressing rooms and ante-rooms for carrying on the work of the grange. A seating capacity of 250 is to be provided. The location, which is at the south end of the long "S" turn of the highway five miles north, is considered ideal in its central situation, being near the converging point of roads from the west end east as well as on the main route north and south. The new building will provide facilities, the lack of which has handicapped the grange, and it is expected that completion of the building will be followed by an expansion program."

## Scholarship To Be Awarded To 4-H Club Worker

A scholarship to the 4-H club summer school at Oregon State college, with all expenses paid, will be awarded the Oregon club member making the best combined exhibit of pigs and corn at the Pacific International Livestock exposition this fall, announced L. J. Allen, acting state club leader. Beginning this year this will be an annual award, designed to increase interest in carrying pig and corn club projects together. It is financed from a balance left over from state corn show funds. Any club member carrying pig and corn club projects will be eligible to compete with an exhibit of four market hogs, all litter mates, and 25 ears of corn from at least one acre grown by the member. The club member may compete in both the Portland union stock yards pig feeding and corn growing contests, and his exhibit in these will qualify him for the scholarship competition.

## Fruit Trees At Cove Covered With Blossoms

By Mrs. A. G. Conklin (Observer Correspondent)  
COVE, Ore. (Special)—It's blossom time in Cove just now. The cherry trees are white with bloom and never have they been fuller of blossoms and with two days of sunshine they will surely bear fruit. The pears and prunes are just opening and with a day or two of sunshine the success of the fruit crop in Cove is almost assured.

The baccalaureate service was held at the Methodist church Sunday evening, May 12. The program was as follows: Doxology; prayer by Chas. Hancock; "O Lamb of God," Roy E. Nott, by the choir, with Miss Vina Conley singing the solo; scripture lesson, the Rev. P. E. Sturges; vocal solo, "Children of Men," Merrill Conley with Miss Vina Conley accompanist; sermon from I Timothy 4:14, "Take Heed Unto Thyself," by the Rev. T. P. Graham who gave a forceful sermon on "Character Building"; closing hymn, "God of the Earth," Carrie H. Adams, sung by the choir.

The Mother's day service at the Methodist church attracted many people. The church was beautifully decorated with spring flowers. Invitations had been sent to the people of the other churches and a large congregation assembled for the program which was carried out as previously announced.

This is the last week of school here and is filled with many things. Today is "class day" and Thursday evening the commencement exercises will be held in the Methodist Episcopal church.

A public dinner will be served on Memorial day. A program in the morning beginning at 11 o'clock will precede the dinner after which the people will go to the cemetery, led by the American Legion, Spanish

War Veterans and Boy Scouts. A poppy sale will be held. Mrs. L. J. Chadwick is chairman of the program committee.

Mr. and Mrs. Kenneth La Violette visited Cove Saturday evening. Mr. La Violette is one of the high school teachers for the coming year and came to look over his new field of work and to arrange a residence. They were on their way from Kim Hill, Idaho, where Mr. La Violette has been teaching and were enroute to Portland.

Mr. and Mrs. C. B. Richardson, of Bend, are enroute to Cove Friday to spend a few days with Mrs. Richardson's parents, Mr. and Mrs. L. M. Laird. The Lairds and Richardson, accompanied by Mr. and Mrs. John Miller and family, Mr. and Mrs. J. H. Fletcher, David Arnold and Lena Nelda Price spent Sunday picnicking on Catherine creek.

A short musical program is being prepared for the dinner given in honor of Mrs. Nellie Grace Saturday evening. The dinner is to be at the Odd Fellows hall and is being sponsored by the Mt. Fannie grange.

Mr. and Mrs. C. B. Richardson, of Bend, are enroute to Cove Friday to spend a few days with Mrs. Richardson's parents, Mr. and Mrs. L. M. Laird. The Lairds and Richardson, accompanied by Mr. and Mrs. John Miller and family, Mr. and Mrs. J. H. Fletcher, David Arnold and Lena Nelda Price spent Sunday picnicking on Catherine creek.

## J. A. GASKILL TESTS LADINO CLOVER AT FARM NEAR IMBLER

J. A. GASKILL—over the valley. Among other experiments which are being tried out this year by J. A. Gaskill on his farm near Imbler, is that with Ladino clover. Mr. Gaskill has put in three acres of this legume, and is raising it for seed purposes. This is the first demonstration in the county and should Mr. Gaskill be successful, it is probable that another year larger acreages will be put in. There has always been a great demand for Ladino seed and it has commanded a high price on the market. The outcome of this particular experiment will be watched with no little interest.

The subject of Ladino clover was one which was given a great deal of emphasis at this year's economic conference. It was stressed by Mr. Avery and is likewise being stressed by his successor, Wray Lawrence. Many are familiar with this legume, others know little or nothing about it. For that reason we are passing on items coming from the Willamette valley where it has been tried now for two seasons.

Ladino clover, a new favorite in the Willamette valley and coast counties, was tried out in the Salem district in 1927, got a good start with 250 to 300 acres increase last year, and Harley White, of D. A. White & Sons, says his firm alone has sold enough seed the present season to add several hundred acres more to the fields this year.

It makes great pasture. It is good bee pasture crop. It is a valuable legume.

This is also known as the giant white or Italian white clover; is a very large form of the ordinary white clover so common on lawns and in pastures—developed in its giant form in Italy. The O. S. C. has a bulletin on it, by Prof. H. A. Schloth, assistant agronomist.

Ladino clover is long lived; good stands up suitable lands properly handled will last four to eight years. It is not deep rooted; of course good soil will produce better crops than poor, however, it is easily choked out by weeds.

It requires inoculation on land that has not grown clover. It may be planted from May 1 to July 1, or September 1 to 20 in the fall.

Land plaster helps in giving a large crop, and in the coast counties immense per acre yields are produced. Lime is necessary on sour lands, as with most if not all other legumes. But the ladino kind will stand more sourness in land than most clovers.

Irrigation may be used on dry soils, to produce bumper crops of ladino clover.

It is not necessary to take heart-depressing drugs or dope of any kind to relieve nerve tortures caused by neuritis, neuralgia, sciatica or rheumatism. Just apply Tyamol over the part that hurts and see how quickly you will be free from discomfort.

Tyamol is a soothing, healing absorbent that goes in through the pores and drives out inflammation which has settled in the nerves. The minute you rub it on you can feel it beginning to relieve. Pains and aches soon stop, congestion is removed, and soreness and inflammation gradually disappear.

Although Tyamol is not up especially for nerve pain and inflammation, sufferers have found it so good for taking the misery out of stiff, swollen or aching joints. Also fine for lame back and muscle aches, sore throat, hemorrhoids, easy to use. Sold by leading druggists. Always on hand at Glass/Drug, Inc.—Adv.

It is grown for pasture, hay and seed; is primarily a pasture plant; is relished by all live-stock and poultry—with heavy pasture tonnage of rich, succulent feed. It is good to rotate, using some fields for pasture and others for hay and seed. The pastured crop may be used for seed by taking off the stock about May 15. Yields of seed go from 100 to 400 pounds to the acre; more seed is produced as the plants grow older, with a full stand maintained.

Land plaster helps in giving a large crop, and in the coast counties immense per acre yields are produced. Lime is necessary on sour lands, as with most if not all other legumes. But the ladino kind will stand more sourness in land than most clovers.

## A SEASONABLE RECIPE

**A SEASONABLE RECIPE**  
Veal Curry  
One and one-half pounds veal  
Five tablespoons fat  
Two tablespoons chopped onion  
One tablespoon green pepper  
One teaspoon curry powder  
Three tablespoons flour  
Two teaspoons salt  
One and one-half cups milk  
One-half cup bread crumbs  
Three tablespoons melted butter  
Place the fat in a frying pan and when well browned add the veal cut in one inch cubes. Add onion and green pepper and cook slowly until brown. Add the curry powder, flour and salt and when well mixed, the milk. Cook, stirring constantly, until the mixture thickens. Pour into a well buttered casserole or baking dish, and place the crumbs mixed with the melted butter, over the top. Bake in a moderately slow oven for one and one-half hours.

## never Late for a plowing date

WHEN the soil is ready . . . when you are ready . . . the "Caterpillar" is ready too. It doesn't wait for the low places to dry out. Its wide tracks travel right over swales and gullies . . . ditches and soft spots. Where early spring tillage pays, the "Caterpillar" track-type tractor kills the weeds before they can waste soil moisture and plant food.

And the owner of a "Caterpillar" is master of most conditions of soil or weather . . . he can harvest when the soil is wet . . . haul over muddy roads . . . he can farm on a schedule.

**THE LONG TRACK LIFE IS BUILT IN!**  
Long life and special wear-resisting qualities are built into the "Caterpillar" track. The links, for example, are especially heat-treated so that the rail is hard and wear-resisting, while the remainder of the same forging is made extra tough to resist breakage!
