Wallowa Shows Much Interest In Stock Show

W. H. Vogel of Union, manager of the Eastern Oregon Livestock show returned Wednesday from Wallowa county where he had spent the first three days of the week in the interests of the show. Mr. Vogel reports that he was very warmly received, that he found much interest and enthusiasm in the Wallowa region for the show, that at least three car loads of stock will be brought down for exhibition, and that a caravan is being arranged for Friday, June 7 which is to be Wallowa county day.

Mr. Vogel announces that the 4-H clubs and the Smith-Hughes students will ship out for display a car load of livestock—beef and dairy cattle, sheep and hogs.

W. C. Dodds will be there with his Herefords on display. T. E. Phillips is getting some of his Shorthorns ready for the show.

Coast Marts List New York Stocks

LOS ANGELES (AP)—Transcontinental stock trading has increased so rapidly in recent months that there now are 28 stocks of the New York stock exchange's list and 36 New York curb market stocks regularly traded in on the Los Angeles exchange.

The Los Angeles market closes two and one-half hours after those in New York, and it is becoming a common practice, says Carl Miller, an official of the exchange, for eastern traders to wire orders here for execution after trading has ended in New York.

He says the number of shares traded in this way exceeds 200,000 weekly and is rising rapidly.

Exchange officials consider the outlook so important from the standard of growth in the local market's trading that they changed the opening and closing time in order to conform with New York's daylight saving schedule.
