Time contract prices on application.

Be sure to attend the Home Products show. Much work and time has been spent in preparing these displays and you'll find them very much worthwhile. No admission charge—and a mighty interesting program.

The consumption of gasoline in Eastern Oregon has been lower the last few months due to the "unusual" winter when motoring was not a popular occupation. But dealers are now encouraged and optimistic. Soon the sons and daughters of Union county adults will be home from college—and the monthly gas bill always takes a jump when there are youngsters to take the wheel.

War is a monstrous thing. It merits all the measures taken for its abolition and prevention. But wars take fewer human lives than accidents due to carelessness, negligence, inattention and failure to observe proper precautions about which one reads every day. Time and attention—individual, organized and legislative—are given to safety campaigns, accident prevention and the promotion of safe and careful practice. And still the newspapers are compelled to devote more and more space to news of the hospital and morgue. And yet most accidents are preventable. Carelessness takes a heavy toll.

STOCK SHOW INFLUENCE

In the possibility of extensive dairy development, according to those who know Eastern Oregon's potential resources, lies the greatest opportunity for more population, more agricultural buying power, more active community business. Few people are willing to contradict that. There is almost universal admiration for the dairy cow and a universal desire to see her kind multiplied. Yet the progress made in the last ten years in dairying in this section is not small, due very largely to the constant spread of information about dairy farming and to the interest in good sires and good cows stimulated by the Stock Show at Union each year. Some of the prize producers of Union county herds today first attracted public attention as calf club entries at the Stock Show. This year the entries of all class of stock will be greater, higher grade than ever before. Nowhere in this entire section can we find one event that means as much to the development and prosperity of Eastern Oregon as does this show. Its doors open next week. Wednesday, Thursday and Friday will be big days in Union and big days for Eastern Oregon. Everyone interested in seeing these valleys go ahead, regardless of knowledge of stock, should attend the show. They will be well repaid in knowledge and entertainment.

QUAKER STATE-MENTS

"Many medicines, few cures." Often Quaker State Motor Oil alone is sufficient to restore a sick motor to health. Try it, my friend! Special refining has removed from each gallon the quart of useless material three buys in ordinary oils. So, in every gallon of Quaker State, there gets four full quarts of lubricant—an extra quart!

WHEAT DIPS TO NEW LOW LEVEL

CHICAGO, May 31 (AP)—Wheat prices dipped to new depths for the season today in a flurry of selling inspired by yesterday's drop in value at Winnipeg. A decline of 1 1/2 to 2 1/2 cents a bushel was recorded at the opening, as compared with Wednesday's closing prices, but an element of doubt lingered among buyers in time to hold prices generally about the mark to which Winnipeg and Liverpool had dropped. May wheat ranged around 94 1/2 to 95 cents at the start and July wheat from 55 1/2 to 57 1/2.

May wheat touched the floor level at 93 1/2, the lowest figure for wheat since an exchange of 93 in 1915. The close was a full higher, however, at 94 1/2. July wheat ended at 57 1/2 and September contracts, after dipping nearly a dollar, rebounded to 41 1/2 to 42.

LEGION PLOT IS DEDICATED AT CEMETERY

(Continued from Page 1)
Mr. Walk said also, "What we need, what we really want is a great peace-federation of the world. That is the glorious future for the nations that spells 'peace and good-will.' We do not need T. N. T. to blow our fellow nations into atoms, but we need more love to help them up into that new patriotism that will obey the laws of God, and usher in a world-wide democracy. As men who really want to attain to something, we must make real to ourselves our highest dreams, and having invested our dream with reality, we must work with all our might to make it come true. Thus have the pioneers of our civilization wrought, and we are the heirs of their realized dreams. May our

Summary: Home runs: Alexander. Two-base hits: King, Cook. Double plays: McKennon to Helms to Stokke, Brown to Bartholomew to Cook. Sacrifice hits: King.

Other reservations in the grand stand will be conducted as usual. Fred Entermille, of Baker, who has judged at such shows as the Pacific International Livestock show at Portland, will be the ringleader in the hog department of the show at Union. Dean H. J. Gramlich, of the University of Nebraska, noted livestock expert is also on the list of judges.

WEATHER IS BURNING ISSUE

of the local service stations to fill the six foot sphere. Horsemen who contemplate competing in the football contest should familiarize their horses with the huge ball before entering the arena to play. George Benson, member of the sports committee, asserts, or there is likely to be some bucking such as the ordinary rodeo never show along with "balloon pole," "musical chairs" and other hilarious contests mixed in with fast kaddie races. The arena events are expected to be a big drawing card with stock show fans.

Persons desiring box seats should communicate soon with Cook Brothers at Union, for reservations.

Dorothy Gray

For those enlarged pores that so frequently develop, even in the loveliest skin, Dorothy Gray has made: **Pore Paste**, a medicated cream to be left on the skin all night. It reduces pores to their normal size. **Pore Lotion**, a fragrant lotion to be patted over face and throat if the skin is oily. It corrects oiliness and helps to refine the skin's texture.

These, and all the other effective preparations used in the Dorothy Gray treatments, may be had at our Toilet Goods Department.

ALL-STEEL REFRIGERATOR

sets new standard of
DURABILITY EFFICIENCY POPULARITY

AN all-steel cabinet that cannot warp. A mechanism that is hermetically sealed, dust-proof and self-oiling. No wonder the General Electric Refrigerator has set new standards! It actually operates more quietly—it uses less current, it provides the maximum food storage capacity. And—important to busy housewives, it operates automatically, regulating itself so that the temperature is always within the safety zone—several degrees below 50.

These new all-steel models are remarkably low in price, beginning at \$215, at the factory. They are as durable as a safe and cannot warp. They keep cold from seeping out and heat from creeping in more effectively than any previous refrigerator ever offered.

Visit our display rooms and see the new all-steel models and learn how easily they may be bought with conveniently spaced time payments.

GENERAL ELECTRIC ALL-STEEL REFRIGERATOR

There are now over 250,000 users of General Electric Refrigerators. Not one of them has ever spent a single dollar for repairs or service. That was our guarantee to them.

Be sure to listen in on the General Electric Hour broadcasting every Saturday Evening from 8 to 9 Eastern Standard Time over the N. B. C. network of forty-two stations.
