

**COALITION TICKET IS TAKING FORM**

Anti-Smith Democrats and Republicans May Merge in Virginia.

LEXINGTON, Va., June 14 (AP)—The possibility of a republican-Anti-Smith coalition in the Virginia

state elections assumed more tangible form today with the definite announcement that Dr. William Moseley Brown, Washington and Lee university professor, would head a coalition ticket if nominated by both Anti-Smith and republicans.

Dr. Brown, who has been mentioned frequently as a probable nominee for governor at the Anti-Smith convention in Roanoke next Tuesday, announced here last night that he would become an independent candidate if he should be the choice of Anti-Smith democrats

and of the republicans. The republican convention is in Richmond June 26.

"I believe we have had too much partisanship in the political affairs of our state," Dr. Brown said in his statement which was made, he said, in response to requests from men and women of all political parties, progressive and independent administration of the affairs of Virginia, which would be just and fair to all parties and interests, but would, at the same time, place the interests of the state above partisan

considerations, might be of far-reaching advantage to Virginia, both in its domestic affairs and in its national relations."

**Widely Discussed**

The possibility of a coalition ticket to oppose the democratic nominee for governor has been discussed widely in Virginia for several months and Dr. Brown has been mentioned in this connection along with several other Virginians. While his nomination has been predicted at the Anti-Smith convention, it was also authoritatively learned that Dr. Brown was

favored by several prominent republican leaders.

A governor, a lieutenant governor and attorney general are to be elected this year. Democratic candidates for the last two named offices have no opposition in the primary, but three candidates for the democratic nomination for governor are now competing. They are Garland Pollard, former attorney general, G. Walter Murr, former state senator and Roosevelt Page, former second auditor and brother of the late Thomas Nelson Page.

**Italian Shot On Return From U. S.**

GUGLIANO, Italy, June 14 (AP)—Antonio Abate, 50, who recently returned to Italy from the United States, was shot and killed in a public square here today by Giuseppe Cerpicano, an old business rival in America, who once before tried to kill him.

Abate returned to Italy with a comparative fortune, in the belief that Cerpicano was still in jail serving a sentence for attempted homicide.

The Italian police are searching for the slayer.

**Recognizes The Man Who Made Good**

WASHINGTON, June 14 (AP)—The traditional figure of fame is the "boy who made good," but Secretary Adams has recognized a "man who made good" in William P. Spores, of Prescott, Ark.

The navy secretary yesterday wrote Mr. Spores commending as an evidence of practical patriotism of the highest order, the fact that his four sons are all enlisted men in the navy.

The eldest of the boys, Ernest enlisted eleven years ago, the secretary said, and now holds the highest enlisted rating. Arnold enlisted in January, 1928; William Frank in January of this year, and on the fourth of June, Luther Clifton Spores completed the roll.

**PREFERS TO BE MOTHER**

BOSTON, June 14 (AP)—A daughter of Woodrow Wilson prefers a career as a mother to a United States senatorship. Commenting on suggestions that she would be a candidate, Mrs. Francis H. Sawyer said: "I care too much for my husband, my children and my home to follow a course which must take me away from them."

MERION, Pa., June 14 (AP)—Dorothy Andrus, granddaughter of John F. Andrus, wealthy capitalist of Erie, Pa., will have a million today, her 21st birthday, if she went home to sign some papers. But she has been in a tennis tournament here. "Let the money wait," she explained. "I can get it any time."

**AUSTRIAN ACTOR DIES**

VIENNA, June 14 (AP)—Max Devrient, considered Austria's greatest living dramatic actor, died today at Chur, Switzerland near the Austrian frontier. He was 72 years old and had served 47 years in the national drama.

**Impressive Contrast**

An instrument made from the wings of a common housefly (the most children are encouraged to catch) is employed at the Mount Wilson observatory in California to measure heat radiated by stars millions of miles from the earth. A shield of fly's wing as the receiving end of a 100-inch telescope presents the maximum of contrast. —World's Work.

**"Force" and "Energy"**

There is a difference in physics between force and energy. A force is considered as anything that produces or tends to produce, destroy or change motion. Energy is the capacity for doing work and it may exist in the form of motion, heat, sound, light, electricity, etc. This capacity may exist even though no force is being exercised.
